6th Grade Reading Extravaganza Challenge!

• What is it?
  • This year, our students will be assigned to read books on their own. This challenge has been created to reward these students for their hard work at the end of the year!

• How does it work?
  • Students should read 300 pages from their favorite books each month. That is only 10 pages a day! In doing this, they would read around 22 books by the end of the year!

• What’s in it for you?
  • Students that meet this goal will be rewarded with the chance to participate in a fun celebration at the end of the year! More details on this celebration are coming soon, so stay tuned…

• Who qualifies?
  • All 6th grade students! As long as they read only 10 pages a day, these students will be eligible to participate in the celebration!

• Reach out to your Language Arts teacher if you have any questions.
