

AP Pre-Calculus Students need to purchase a Graphing Calculator.
Recommended: TI-84 CE

<https://www.youtube.com/playlist?list=PLoGgviqq48477akYFkAyTSeTbWkF4hoWk> This is a playlist of ramp up videos for APPC. We don't do summer homework, but these videos have built in problems and keys that if kids wanted to review/prep ahead of time, it would make it super easy.

Also, each of these playlists is useful for learning to USE your graphing calculator (the last one is a single video).
