

Dear Fletcher High School families,

News about Coronavirus is causing many questions and concerns.

I am writing to let you know that the health and safety of Fletcher High School students is always our most important goal.

Our school and our school district are in full partnership with the Florida Department of Health and the Centers for Disease Control (CDC) to prevent any impact on our schools. We are also planning just in case it does impact our schools.

Currently there are no cases of coronavirus in our district or in our state, and we are considered to be at low risk for any impact.

Just like any virus, we can help slow the spread by following everyday preventive measures: Keep your children home if they are sick; cover coughs and sneezes, and wash hands with soap and water for at least 20 seconds.

The flier attached contains more information both about coronavirus and preventive measures. I encourage you to read through it to be informed. We will also send this flier home with students next week.

Our school district works closely with the Department of Health to inform parents anytime health issues impact a school. We will do the same for Coronavirus.

For additional information on Coronavirus, please visit:

www.cdc.gov/coronavirus/2019-ncov/index.html

www.floridahealth.gov/diseases-and-conditions/COVID-19

As always, if you have any feedback on your child's experience here at Fletcher High School, please don't hesitate to reach out to me.

You are receiving this email because of your relationship with Fletch
