

Attention Student Drivers: Due to the beach's area drainage project, beginning Monday, Nov. 5 the entrance to the back parking lot will be a one-way entrance from 5th street. Students will be able to enter the back lot from 5th street, however they will not be able to exit using the 5th street entrance. Students must exit the back parking lot using the driver's education exit. Also, some parking spots along the canal will not be available. To compensate students with parking passes can use 10th street to park during the time of the project.
