

FOR STUDENTS

Students can look to see what devices are checked out to their student number by logging into one view. If the word my devices does not appear in the column to the left, then they do not have any devices checked out to them. <https://duvalschools.azurewebsites.net/>

FOR PARENTS

Login to parent OneView. From the menu on the left. Select My Student Devices.

Then you can view any devices checked out to your students. If there are no devices, it will say no devices. If your student has a device, it will show the device.

The screenshot shows the OneView interface with a sidebar on the left containing navigation options: HOME, BLENDED LEARNING, MY LINKS, MY SCHOOLS, MY STUDENT INFO, and MY STUDENT DEVICES. The main content area displays two student records under the heading 'MY STUDENT DEVICES'.

The first record shows a student name with a red arrow pointing to the text 'No devices found'. A red box highlights this text with the annotation: 'Student 1 does not have a device.'

The second record shows a student name with a red arrow pointing to a table of device information. A red box highlights the 'Id' field with the annotation: 'Student 2 has a device, and this is the asset number from the back of the device.'

Device assigned	Information
Id	16440133699
Host Name	ST11E00R910Z5Y9
Description	STUDENT LAPTOP 11E THINKPAD CELERON
Serial Number	R910Z5Y9
Manufacturer	Lenovo
