

CHAPTER SUCCESS REPORT

QUALITY CHAPTER PLAN AND REPORT

Dear Katrina MCCray,

The Florida FFA Quality Chapter Plan and Report is designed to promote the consistent delivery of high quality FFA programming throughout the state, focused on premier leadership, personal growth, and career success. These standards should improve chapter operations consistent with the traditional Program of Activities (POA) and emphasize student, chapter and community development.

Your agriculture teacher and FFA chapter advisor has recently completed the Quality Chapter Report in an effort to report a successful year. **Events that the chapter has or will participate in, awards the chapter has or will apply for, and the chapter's membership goals or accomplishments are highlighted below.**

Quality standards have been developed in five (5) areas as a minimum requirement for recognition as a bona fide FFA chapter in the state of Florida. Chapters should plan activities in each of the quality standard areas with an emphasis on measurable results. The FFA Mission and Strategies should be used as a guide in planning, implementing and assessing accomplishments.

FFA Chapters that do not meet the minimum adopted standards for a quality chapter will be allowed to continue, but with limited participation, until minimum standards have been met.

In order to meet the minimum quality standard each chapter must complete at least one (1) activity or score a minimum of 10 points in each of the standard areas and earn at least 150 points for Senior chapters and 125 points for Junior and Middle School chapters. No more than five activities in each area will count towards this total.

Chapter: Mayport MS FFA

Advisor: Jill Sullivan

Leadership Development Events:

- Chapter Officer Leadership Training (COLT)
