Zeina Spaulding, Principal

08/23/2019

Dear Parents/Guardians:

This letter is to inform you that there will be a trained service animal, a dog, in our school assisting one of our students. The service animal will be in your child's classroom effective **9/3/2019**.

Service animals are individually trained to do work or perform tasks for the benefit of a child with a disability, including, but not limited to, retrieving items, assisting an individual during a seizure, providing assistance with balance and stability, etc. The Americans with Disabilities Act (ADA) and Title II Regulations entitle the student to have a service animal accompany him/her in all areas where members of the public are allowed to go. Students in the classroom will be instructed as to the proper procedure regarding the service animal, that the animal is 'working' and not a pet while at school. School staff will help the students learn how the service animal will be integrated into the daily routines of the class.

Thank you for your understanding and support. Should you have any questions or concerns, please contact me at (904-538-5120).

Sincerely,

Zeina Spaulding
Principal

EVERY SCHOOL. EVERY CLASSROOM. EVERY STUDENT. EVERY DAY.
