

The AP Spanish Language course is conducted completely in Spanish. We encourage all students throughout their Spanish studies to practice the target language consistently with their teachers and peers. They should be able to use the Spanish language to:

- Expand their interpersonal communications skills and understand conversations, lectures, oral presentation, newspapers, letters, instructions, Internet articles, and short stories
- Express themselves orally by convincing, arguing, inquiring, and describing.
- Express themselves well in a variety of styles, refining their written presentational skills in formal and informal contexts by using different strategies for different audiences.
- Broaden their understanding of the cultures that comprise the Spanish-speaking world through the study of history, literature, art, music, and current events.
- Make connections between their learning in the Spanish classroom, their learning in other classes, and their daily lives.
