

Shandon Benjamin-Fox is a Jacksonville native and a graduate of Jean Ribault Sr. High School. Having a thirst for education, she was the first in her northside family to graduate from college, as a graduate of Edward Waters College. A born leader, Mrs. Fox continued her education, and obtained two Master's degrees from the University of Phoenix (Curriculum Instruction and Administration & Supervision). She has taught on the collegiate, middle and elementary school levels. She is known for her love of mathematics and unorthodox methods of teaching and coaching. As a teacher at Brentwood Elementary School of the Arts, she continues to set high expectations for the staff and students where she can be heard constantly through-out the school year saying "It's all about M-A-T-H".

Mrs. Fox's personal belief is that education should provide ample opportunities for all students to gain knowledge to the best of their ability, effort, and interest regardless of race, ethnicity, culture, gender, or socio-economic status. She believes, "education is our passport to the future, for tomorrow belongs to the people who prepare for it today." - Malcolm X
