## Principal's Message

### Greetings Stockton Family!

I hope February finds you healthy and happy. I would like to address all parents, guardians, and students in regard to masks. I know it is not ideal to constantly wear masks, but it is the time we live in now. Parents and guardian, please remind your students how to properly wear their masks while they are in school. Students, please know that this safety measure is in place to protect others as well as you. There have been too many reminders to "fix your mask" while in school. Let us be vigilant so we can all say we did our part in fighting this pandemic.

I'm leaving the FSA testing schedule here for reference as the dates quickly approach. Please also see the PMA testing schedule just above it. The PMA is a diagnostic assessment to determine last minute instructional needs. With ALL tests, please ensure your student gets adequate rest the night before and a healthy breakfast the morning of testing.

## COUNSELOR CORNER

Our character trait for the month of **February** is **Charity**. Charity is defined as generosity and helpfulness especially toward the needy or suffering.

One of the best ways to teach your child about giving is by donating extra items around your home. Spend an afternoon with your child going through old toys and clothes that they no longer wish to keep. Work together and put these belongings into a box. Then, let your child join you on a trip to your local shelter or charity. Let your child know that there are many people less fortunate than them who will appreciate these gifts immensely.

Volunteering is also a wonderful way to teach your children about charity. Children can volunteer for causes they are closely connected to. Those who love the environment may want to spend the day cleaning up the beach; those who love getting messy in the kitchen might want to have a bake sale and donate proceeds to a local cause.
