Here to help, here for health!

Your child doesn't have to wait to get care.

With Hazel Health at school, your child can see a doctor as soon as they aren't feeling well, **at no cost to families.**

Hazel Health is now providing telehealth doctor visits in your school health office. Fill out the Hazel consent form, and your child can talk to a doctor or therapist over video at school when they have a health concern. You can also access Hazel doctor visits at home. With this service, students are sent home sick less often - and you may not have to leave work or visit urgent care.

When to use Hazel:

- | | | | |
|--------------------|----------------------|-------------------|--|
| Headaches | Lice or Insect Bites | Anxiety or Stress | <i>and other non-emergency health concerns</i> |
| Stomach Aches | Ear Infection | Sleep Problems | |
| Sore Throat | Allergies or Rash | Grief or Loss | |
| Fever, Cold or Flu | Minor Injuries | Bullying | |

Hazel is available to every student. Hazel does not replace your regular doctor or insurance.

Please turn form in to your school **by Friday!**
