What is a Growth Mindset?

In this activity you will spend some time understanding Dr. Carol Dweck’s theory about Growth Mindset. It has been implemented by prominent learning organizations and companies in recent years. Although it’s become a buzz word, we should take time to understand what it is and what it has also become and how we can use this to enhance our foundational teaching skills.

The activity below is a requirement of Teacher Development & Support induction and should be completed by Checkpoint C. The activity is two parts; with the first part building your understanding of Dr. Dweck’s work and the second part implementing what you’ve learned into your own classroom. You should read through the entire assignment first, then make an action plan for yourself including when you will execute your lesson with your students, and ensure you have all parts of the assignment completed before the Checkpoint C deadline. If your assignment is reviewed as “Not Yet” or is not complete/submitted by Checkpoint C, all teachers will have until Checkpoint D to resubmit.

Part I: Understanding

Watch!

Required: Watch this TED Talk to understand the Growth Mindset as described by Dr. Carol Dweck, that first used the term. https://www.youtube.com/watch?v=_X0mgOOSpLU

- Interested in more? Check out these additional videos about Growth Mindset:
  - The Power of belief – mindset and success | Eduardo Briceno | TEDxManhattanBeach: https://www.youtube.com/watch?v=pN34FNbOKXc
  - Grit: The power of passion and perseverance: https://www.ted.com/talks/angela_lee_duckworth_grit_the_power_of_passion_and_persistence

Required: Do we know a Fixed Mindset when we hear one? When have we or our mentors, coaches, managers, etc. exhibited a fixed mindset over a growth mindset? Check out this video of the common examples of teachers displaying fixed mindsets and how if we can recognize them, we can navigate them. The common fixed mindsets are called “The Four Horsemen.” https://www.matchminis.org/videos/for-coaches/43/reducing-fixed-mindset-behaviors/

Read!

Required: Read this article to understand some common misconceptions about implementing the Growth Mindset. https://hbr.org/2016/01/what-having-a-growth-mindset-actually-means

STOP: Make sure to capture and type your reflections on your “Growth Mindset Reflection Guide” word document that will be submitted. The reflection guide is at the top of your “Growth Mindset Lesson Planning Template.”
Do!

1) **Required**: Where do you stand? It’s helpful before we move forward, that you know where you are regarding a growth mindset. Take the online assessment found here: http://blog.mindsetworks.com/my-mindset?force=1&Itemid=908

STOP: Make sure to capture and type your reflections on your “Growth Mindset Reflection Guide” word document that will be submitted. The reflection guide is at the top of your “Growth Mindset Lesson Planning Template.”

2) **Required**: Explore Growth Mindset Lesson Plans in your content area. If you are in a specialty area (guidance counseling, ESE support, etc) consider how you could modify this material for students in your small groups or one-on-one meetings.
   - Elementary: Example of Elementary Growth Mindset Implementation can be found here: http://www.kirstenskaboodle.com/growth-mindset-activities-fantastic-elastic-brain/

Part II: Applying

Implementation!

Next Steps:

1) After exploring examples of implementation of Growth Mindset, use the “Growth Mindset Lesson Planning” template (the template under your reflection questions) to complete a mini-growth mindset lesson in your classroom.

2) After planning the lesson, execute your “Growth Mindset Lesson Plan” in your classroom (if secondary, implement in at least one of your classrooms).

3) Make sure to capture at least 2 pieces of evidence that shows you executed your plan. Examples of evidence are:
   - Pictures of completed graphic organizers or worksheets that were included in your lesson.
   - Pictures of group posters, post-it notes, charts, graphs were students responded to an activity or questions from your lesson.
   - A short (5 minutes or less) video (with the back of the students’ heads- no faces) showing you (the teacher) executing your Growth Mindset lesson.
   - A short (5 minutes or less) audio recording of students’ responding to your questions reviewing your lesson and growth mindset.
4) Make sure that your lesson plan and evidence meets the criteria below before submitting to the appropriate space in your induction Blackboard course.
