Transportation for 2020-21 School Year
New for this school year, parents who need to register for bus transportation for this coming school year must do so online using Focus. If you need a Focus account, click here. If you already have a Focus account, click here for directions on how to register for a bus stop (remember that eligibility for busing depends on how far you live from the school and any special status your student has such as being ESOL for example). Call 904-858-6200 for more information.
