

# **Quarterly Progress Report**

JULY -SEPTEMBER 2023

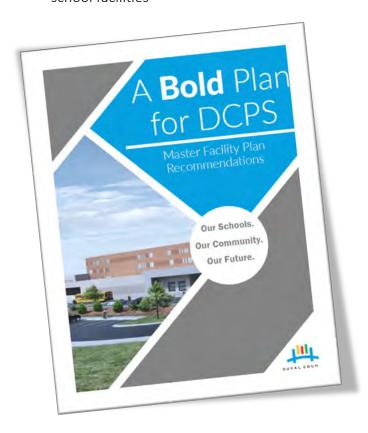

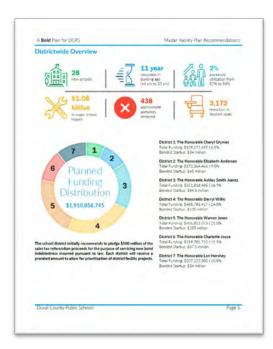

# PROGRAM DESCRIPTION

Duval County Public Schools (DCPS) embarked on a comprehensive master plan to address areas of improvement for campuses districtwide. Our goal was to develop a Master Facility Plan (MFP) that would address aging DCPS buildings (among the oldest in the state of Florida), create safe and secure spaces for students and staff, remove most of the DCPS portable classrooms, decrease excess seat capacity, and increase utilization of our existing seat capacity. Additionally, this plan corrects over one billion dollars in deferred facility maintenance over a 15-year period.

The plan, completed in 2019, supports the referendum passed by the Duval County voters in November 2020. The program will be executed over a 15-year period (2021 – 2036), focusing on:

- Addressing \$1B of deferred maintenance (due to state funding reductions)
- Enhancing district efficiency by optimizing the utilization of empty seats
- Improving every school's security and safety within the first three (3) years
- Removing most portables to reconnect students to the school environment
- Improving learning environments with natural light, improved air quality, temperature controls, acoustics enhancements, and a sense of safety
- Obtaining operational savings by reducing general and deferred maintenance, utility, security, and insurance costs by consolidating under-utilized schools
- Building new school campuses to replace overaged schools, thereby reducing the average age of school facilities

Visit the District website to view the plan https://dcps.duvalschools.org/see-the-plans

# **EXECUTIVE SUMMARY (Sales Tax Funded Projects)**

The following metrics illustrate the health of all projects (Sales Tax and Millage funded) in the Master Facility Plan at the end of the reporting period.

**Rutledge H. Pearson ES (On-site Replacement).** Rutledge Pearson successfully completed a ribbon-cutting ceremony on August 10, 2023, to celebrate the project's completion and welcome staff and students to their new elementary school. The school is now fully occupied and operational. This project will no longer have updates going forward.

**Chaffee Trail MS (new greenfield 6-8).** Significant progress has been made on the Chaffee Trail MS Project over the past three months. Clean soil importation, site grading, and underground rough-ins for electrical and plumbing are complete. Concrete has been poured for the slab on grade, and tilt wall panel formation is progressing well. Structural steel erection and steel decking installation have commenced. The third lane at Sam Caruso Way is paved, and the low voltage bid package will be awarded soon following the latest revisions.

**Highlands ES (On-site Replacement).** Demolition of the existing campus and roof on buildings 16 and 17 is complete. Plumbing, mechanical, and electrical rough-ins, as well as building slabs and underground foundations, have been poured. On-site grading and below-grade utilities will commence after inspections and backfilling are complete.

**Southside Estates ES (On-site Replacement).** The temporary construction easement from the City of Jacksonville for construction laydown and staging was finalized. Value engineering exercises and incorporation of items into the prototype construction design have been completed. Site work, Mechanical, Electrical, Plumbing (MEP) underground, building pad preparation and precast fabrication have commenced and continues.

**North Shore ES (Deferred Maintenance).** All subcontracts associated with the North Shore Deferred Maintenance project have been awarded by Allstate Construction. The new playground equipment has been ordered and should be delivered soon. The air conditioning equipment for the classrooms has been ordered and is in production. Construction work is scheduled to start in December 2023.

Jean Ribault Senior HS (On-site Replacement). The Phase 1 temporary portables project has been completed at Ribault MS allowing the successful transition of High School students to Middle School, while the construction on the new Ribault HS is underway. Phase 2 Guaranteed Maximum Price (GMP) for the construction of the new Ribault HS has been submitted for board approval at the October 2023 board meeting. A successful groundbreaking was held on September 19, 2023, with the asbestos abatement commencing on September 20, 2023. Demolition of the old facility to commence as asbestos abatement progresses.

**Spring Park ES (On-site Replacement).** Basis of Design and Phase II Design Development (DD) Drawings were received by the Design Team. The design of Southside Estates ES is being re-used as a prototype for this school. Land swap negotiations between Duval County Public Schools (DCPS) and City of Jacksonville (COJ) Parks Department as well as legal descriptions and new boundary surveys continue. An appraisal for both land parcels was requested by COJ and coordination for this action began. Survey and geotechnical reports were completed. Phase II DD estimate and constructability reviews were completed by the Construction Manager (CM). Phase I environmental survey has been scheduled. Final design review charrettes were completed with DCPS stakeholders.

**Sheffield ES (On-site Replacement).** Property acquisition for remaining Lanier Rd. parcel completed. Coordination for Jacksonville Fire & Rescue Department (JFRD) training exercises at Lanier Rd. parcel began. Asbestos survey and Phase I environmental survey for Lanier Rd. parcel completed. Endangered gopher tortoise population was discovered on Lanier Rd. parcel. Gopher tortoise survey was completed, and a permit was requested from the Florida Wildlife Commission. Basis of Design and Phase II DD drawings were received by the Design Team. The design of Southside Estates ES is being re-used as a prototype for this school. Survey and geotechnical reports completed. Phase II DD estimate, and constructability reviews were completed by the CM. Phase I environmental survey has been scheduled. Final design review charrettes were completed with DCPS stakeholders.

**Englewood ES (On-site Replacement).** Design revisions continue, ensuring 100% of the usable space is being built in accordance with Enhanced Hurricane Protection Areas (EHPA) standards, which includes a design change to accommodate upgraded MEP. A comprehensive services request, which includes wetland delineation and additional requirements for Exceptional Student Education (ESE) stations was submitted.

**Pickett ES (On-site Replacement).** Design revisions continue, ensuring 100% of the usable space is being built in accordance with EHPA standards, which includes a design change to accommodate upgraded MEP. A comprehensive services request, which includes wetland delineation and additional requirements for ESE student stations was submitted.

Mandarin HS (Renovation and Addition). The Design Development phase has begun, with the Architectural Engineer (AE) team making progress. The Construction Manager is actively involved in logistics planning, scheduling, and estimating services. A geotechnical investigation has been completed, and the procurement process for commissioning agent services has started, ensuring crucial project preparations are in place. Regular meetings with DCPS stakeholders are ongoing, and a traffic impact study has commenced as requested by DCPS.

**Fletcher HS (Renovation and Addition).** The AE Team is successfully progressing in the DD phase. Notable achievements include designing temporary swing space within the existing building and advertising the demolition of portables for GMP pricing. The CM team is actively engaged in logistics planning, phasing scheduling, and estimating services. Roof replacement is already in progress, with about 70% completion. AE remains committed to the procurement process for commissioning agent services to ensure quality assurance. The project is on track and making steady progress. The program verification has been revised and is currently under review by the Facilities Executive Director.

**Westside MS (Renovation).** GMP for construction was awarded at the August 2023 board meeting. Notice to proceed for construction was issued immediately following the board meeting. Permit for construction was issued. Onsite mobilization for construction is complete. The asbestos survey and abatement work were completed. Demolition commenced and renovation works began. The roofing rehabilitation project began and continues. Furniture coordination commenced.

**Loretto ES (Renovation and Addition).** Phase I Schematic Design (SD) has been resubmitted by the Design team with corrections to the cafeteria serving lines. Schematic Design has been sent to CM for early pricing. Program verification sent to DCPS for approval. Currently conducting analysis on where to construct new addition.

**R.L. Brown Gifted and Talented (Renovation).** The program verification documents have been submitted for signatures, indicating progress in the approval process. Concurrently, the AE has completed the SD phase and continues with DD. The AE is actively engaged in procuring commissioning agent services and conducting site visits to verify scope and design requirements.

**Move Management.** Summer moves have concluded. Moves included Highlands ES to MLK ES, Lake Forest (Testing and Assessment) to RL Brown, BTS HS from APR and Westside HS to Henry Kite ES, Henry Kite ES and MLK ES to new Pearson ES, Ribault HS to Ribault MS, Ribault MS to APR, AMI at Saint Claire Evans to Carter G. Woodson, and Pearson ES stored items to the new Pearson ES. Summer move planning will begin in January 2024 with each Project Manager and Assistant Project Manager to maximize moving capabilities.

# **CONTRACT AWARDS AND ACTIVATIONS**

**Annual Term Contracts.** The District adheres to Florida Statute 287.055 when awarding projects to firms using the Annual Contracts with the District. Work is equitably distributed to firms based on their willingness to meet time and budget requirements, recent, current, and projected workloads, and the volume of work previously awarded to each firm.

#### ARCHITECTURAL/ENGINEERING CONTRACT

Badge Pass Installation Project – Akel/Logan and Schafer Architects were awarded.

Englewood ES, Pickett ES, Louis Sheffield ES, Spring Park ES, Fletcher HS, Mandarin HS – Amendment to design services contract for incorporating EHPA requirements

#### CONSTRUCTION MANAGEMENT CONTRACT

Westside MS – Stellar GMP Amendment No. 1 was awarded.

Sheffield ES – Perry-McCall Demolition and Gopher tortoise Relocation was activated.

Chaffee Trail MS – Gilbane GMP Amendment for Low Voltage work was awarded

Badge Pass Installation Project – E. Vaughn Rivers Construction Company

#### **OTHER CONTRACTS**

Code Review and inspection services were activated for Spring Park ES and Louis Sheffield ES

# THREE-MONTH LOOK-AHEAD

**Rutledge H. Pearson ES.** The project has reached substantial completion and is expected to reach final completion in December once the new generator is swapped out for the temporary generator. Closeout documents will be prepared, and warranties will commence.

**Chaffee Trail MS.** The installation of the tilt-wall panel system will wrap up in October 2023. The erection of structural steel will also be completed, followed by the roofing system and fireproofing of the steel. The installation of steel stairways will be installed. The CMU masonry walls will be constructed. The underground storm and sanitary piping system are on target to be completed in this quarter.

**Highlands ES.** Casting beds and tilt wall panels will be completed along with rough-in of mechanical, electrical, and plumbing. Walls will begin to get erected, interior masonry will be progressing, and roof supports will begin to be installed in existing buildings 16 and 17.

**Southside Estates ES.** Site development, subterranean MEP work, foundation laying, and building slab construction will reach completion. Procurement of precast components is behind schedule and a recovery plan is currently being worked out. At the moment, the delivery and assembly of precast components are slated to commence in the latter part of October.

**Jean Ribault Senior HS.** Phase 2 GMP expected to be approved at the October Board meeting on October 9, 2023. Asbestos abatement will be completed, and demolition will be nearing completion, along with some site grading and underground rough-in for mechanical, electrical, and plumbing.

**Fletcher HS.** The AE will proceed to the Construction Documents (CD) phase, contingent upon approval of the submitted DD package. Upon completion of the construction documents, the CM will start the bidding and procurement phase to generate a GMP for complete scope of work. GMP for temporary swing space is expected to be approved at the October board meeting.

**Mandarin HS.** The AE will proceed with the CD phase while awaiting DCPS review and approval of the DD package. Upon receiving approval from DCPS, the CD phase will continue, with careful attention to ensuring that all necessary details and specifications are thoroughly incorporated for the upcoming construction phase. Simultaneously, the traffic impact study report will be concluded, and preparations will commence for the transition into the construction phase. This will involve essential activities such as selecting contractors, procurement, and obtaining the necessary permits.

**RL Brown ES.** The AE team will submit the DD package for review and approval by the DCPS Project Manager. Following approval, the AE will transition into the Construction Documents phase. The CM team will continue actively working on logistics planning, phasing scheduling, and estimating services.

**Loretto ES.** Program verification to be submitted to DCPS upon completion of new construction building location analysis. The request to reduce the size of the existing footprint has impacted the project schedule, as the design team has been working on identifying viable options for DCPS to consider. The next step is to present the options to DCPS, and upon approval, gather design documents for review. Project management team to schedule asbestos survey in preparation for modernization.

JULY-SEPT 2023

**Westside MS.** Renovation of Buildings 05 and 08 will continue. Construction of bathroom in Building 03 will begin. Furniture coordination will continue.

**Spring Park ES.** Phase III CDs will be completed in early October. GMP proposal for construction is expected in late November. Land swap negotiations will continue, and resolution is expected by the end of year.

**Sheffield ES.** Phase III CDs will be completed in early October. GMP proposal for construction is expected in late November. JFRD training exercise and demolition of Lanier Rd. parcel will be completed. Florida Wildlife Commission permit for Gopher tortoise relocation is expected in late October. Gopher tortoise relocation efforts will begin and complete.

**Englewood ES.** Due to additional requirements of building the facility to 100% enhanced hurricane protection area, a 60-day time extension was board approved. Phase III design submittal (100% CDs) to be completed November 29, 2023. Bidding and GMP negotiations follow.

**Pickett ES.** Due to additional requirements of building the facility to 100% enhanced hurricane protection area, a 60-day time extension was board approved. Phase III design submittal (100% CDs) to be completed November 29, 2023. Bidding and GMP negotiations follow.

# CONTRACT AWARDS AND ACTIVATIONS (THREE-MONTH LOOK-AHEAD)

**Annual Term Contracts.** The District adheres to Florida Statute 287.055 when awarding projects to firms using the Annual Contracts with the District. Work is equitably distributed to firms based on their willingness to meet time and budget requirements, recent, current, and projected workloads, and the volume of work previously awarded to each firm.

# ARCHITECTURAL/ENGINEERING CONTRACT

No AE awards are anticipated in the next quarter.

#### CONSTRUCTION MANAGEMENT CONTRACT

Ribault HS - Gilbane GMP Amendment No. 2 to be awarded.

Fletcher HS – Culpepper Construction GMP Amendment for temporary swing space to be awarded.

Phase 2 Group 8 Safety and Security Upgrades GMP to be activated.

Phase 3 Group 2 Safety and Security Upgrades GMP to be activated.

Phase 3 Group 3 Safety and Security Upgrades GMP to be activated.

#### OTHER CONTRACTS

The below activations were not required in the last quarter and hence have been postponed to the next quarter.

Loretto ES - Code Review and inspection services to be activated.

RL Brown ES - Code Review and inspection services to be activated.

# MARKET CLIMATE

The period from June 1 to September 31, 2023, showcased a continuation of inflationary pressures in the U.S. economy, reflecting significantly on the non-residential construction industry. The inflation indices and their implications on construction input costs, project financing, and overall construction spending in the non-residential sector are summarized below. Key data sources include reputable industry organizations and economic data repositories like the Associated Builders and Contractors (ABC), and the Federal Reserve Economic Data (FRED).

**Non-residential Construction Industry Inflation:** Construction input prices continued to rise, albeit at a moderated pace. In July 2023, construction input prices rose by 0.6%, with non-residential construction input prices registering an increase of 0.8% for the month, marking a 23.1% ascent compared to a year ago.

**General Inflation Trends:** The broader inflation scenario remained pertinent with the 1-year expected inflation rate standing at 2.24% as of September 2023. This inflationary trend continues to be a significant determinant of construction input prices and project financing costs.

**Implications on the Construction Sector:** The inflationary trend has further underscored the necessity for strategic planning and risk mitigation in project financing and procurement. The rising cost of materials while slowing will continue to drive up bid prices until a "new normal" is reached.

The inflationary climate between June and September 2023 remains the greatest risk to the program. To manage the risk we're carefully planning projects, considering alternative delivery methods, and continuously monitoring the market sector. Unfortunately, the escalating construction input prices, coupled with general inflation trends, continue to shape the financial landscape of the industry.

# **FINANCIAL STATUS**

# **Progress this Period**

**Revenue Collected.** Duval County Public Schools has collected \$294.54M through June 2023 in Sales Tax revenue. The District's share of the sales tax revenue collected is \$249.2M. District's share of Millage assigned to MFP through FY22-23 is \$43.06M.

**Revenue Projection.** The District's 2023-24 Fiscal year started on July 1, 2023. We are projected to collect \$296.76M in Sales Tax Revenue through June 30, 2024. District's share of Millage funds for MFP for FY 23-24 is projected at \$41.78 M. These funds will be used to support the continued progress of current projects and fund the start of the following year's projects.

**Budget Changes.** Through this period, the approved budget changes totaled \$6.66M for all active projects.

**Commitments and Encumbrances.** The District committed \$308.98M through this period for all active projects.

**Retainage Reductions or Retainage Releases.** There was \$118.04k in retainage released this period for the Safety and Security Phase 1 Group 4.

**Change Orders.** There was a total of (\$190.56k) in change orders approved at the August and September board meetings for the Safety and Security Phase 1 Groups 3&5 and Phase 2 Group 7 Projects.

**Expenditures and Payments.** Payments, including this period, totaled \$119.83M.

# **Report Column Definitions**

#### **Financial Summary Report:**

- A. Master Facility Plan (MFP) Budget Allocation Established per MFP
- B. Approved Budget Changes Approved by the School Board
- C. Current Budget Sum of Original Budget & Approved Budget Changes
- D. **Original Contract** Sum of Original Contracts & Purchase Orders
- E. **Approved Change Orders** Approved GMPs & Change Orders
- F. **Current Contract** Sum Original Commitments & Approved Changes
- G. **Expended Cost** Total earned and paid to date
- H. **Percent Expended** Total earned and paid to date as a percent

# **Funding Summary Report:**

- A. Unassigned Budget as per Bold Plan, that has not been assigned a revenue source yet
- B. Millage Amount funded through millage for a particular project
- C. Sales Tax Amount funded through sales tax for a particular project
- D. Total Sum of amounts funded through millage/sales tax/ unassigned for a particular project
- E. % Allocated Percentage of total fund that has been assigned a revenue source

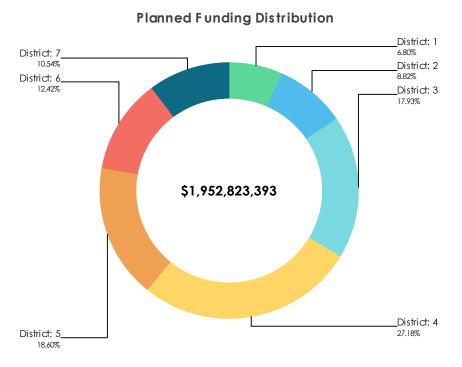

(See the Financial Summary Report and Funding Summary Report for additional details)

# SECURITY AND SAFETY UPGRADE PROJECTS

FACILITIES ENGINEERING, DESIGN, AND CONSTRUCTION

# SECURITY AND SAFETY UPGRADE PROJECTS

# Scope of Work

All schools will have security and safety vulnerabilities addressed within the MFP's first three (3) years. This report focuses on projects funded by the Half-Cent Sales Tax.

# **Execution Strategy**

Architects from the District's Architectural/Engineering Services Contracts and Construction Managers from the District's Construction Management Services Contracts were assigned several schools based on adjacency and estimated construction cost.

Each school's needs are assessed based on a prioritized rubric that includes a single point of entry solution creating a sally port, hardening select areas to create safe shelter zones, adding impact-resistant film to windows, securing the perimeter with fencing, bollards, gates, access controls, improved lines of sight, exterior lighting, and signage.

### PROGRESS THIS PERIOD

**Phase-1 Projects (42 schools).** Group 1 and Group 4 projects are completed and closed out. Groups 2, 3 and 7 are in the close-out stage with punch list work complete. Group 5 is finishing the last phase of work with light pole installations, targeting September for completion. Group 6 is in final negotiations for project close-out.

**Phase-2 Projects (46 schools).** Group 1 and 2 are nearing completion with secured vestibules and Badge Pass infrastructure in place; final inspections for Group 2 are set for October 2023. Groups 3 and 4 have completed major installations and are in the final stages. Group 5 is in progress, pending modifications to secure vestibule, while Group 6 is nearing project close-out. Group 7 is wrapping up electrical and painting tasks. Group 8 is in the bidding phase following design submission for code review.

**Phase-3 Projects (22 schools).** Group 1 has initiated Phase I construction for site improvements and issued Phase II GMP for secure vestibules. Group 2 is about to commence construction under Foresight as the Construction Manager. Group 3 is finalizing design revisions for DCPS code review. Group 4 has completed exterior bollards, is progressing on window film and FISH signage installations, and is in the electrical rough-in stage for the Badge Pass system.

**Badge Pass Installation.** The Badge Pass Installation Project was created to incorporate all the Badge Pass equipment installations at 42 schools from the Year 1 safety and security program into this project. This work includes the installation of Badge Pass equipment from year 1 schools and enhancements to those schools to include electrical revisions, additional security cameras and monitors requested by DCPS IT Department. It will also add secondary pushbuttons for secure entry into many of those schools. The existing slider windows will be replaced with a "bank teller" style window for additional security.

A survey of all 48 schools in the year 1 program was completed during the month of August 2023 with representatives from DCPS IT Department, ALS Architects and E. Vaughn Rivers Construction Company. The survey of these schools determined what portions of work needed to be completed for each school in order to bring them up to today's standards for safety and security. Each school will have a revised set of plans prepared to incorporate and identify the remaining work for permitting and bidding purposes. Mandarin Middle School has already been redesigned, and is currently submitted for code review, permitting and bidding of the work.

# THREE-MONTH LOOK-AHEAD

**Phase-1 Projects.** All groups will be in the close-out stage.

**Phase-2 Projects.** Groups 1-4 will undergo vestibule revisions and Badge Pass installations, with an aim to close out by 2023. Group 5 will implement vestibule and millwork modifications and will be entering the closeout stages along with Groups 6 and 7. Group 8 will proceed with bidding and procurement upon receiving DCPS approval for the revised Phase 3 design.

**Phase-3 Projects.** Group 1 will complete Phase I site improvements and Phase II vestibule construction and will be substantially complete by the end of 2023. Group 2 will initiate site preparation, mobilize construction teams, secure permits, and finalize the project schedule. Group 3 will finalize design revisions and submit Phase 3 documentation to DCPS for approval. Group 4 will undergo vestibule revisions and Badge Pass installations, targeting closeout by 2023.

**Badge Pass Installation.** The Badge Pass Improvement Project is underway with the development of revised drawings for the 48 schools in this program. In the next three months, the engineering and development of new drawings for this project is on target to be completed by the end of the year. The bidding of the plans for each school in this program will be performed and awards for the work will follow. Our goal is to have the majority of these schools bid and awarded for construction of the revised vestibules and Badge Pass equipment installations.

# OWNER'S REPRESENTATIVE PROGRAM MANAGEMENT

FACILITIES ENGINEERING, DESIGN, AND CONSTRUCTION

# **OWNER'S REPRESENTATIVE**

# **Progress This Period**

**Program Management Information System (PMIS):** A strategic portfolio management platform has been deployed to enhance the scheduling solution. Integrated with Microsoft Project, this tool is facilitating Adaptive Portfolio Management, providing teams with a new level of visibility and decision-making across all projects.

**SharePoint Information Management**: The SharePoint platform is operational, and data migration is in progress. This transition is aimed at ensuring data security and enhancing accessibility for better coordination across teams.

**Program Development:** Continuous attention is being paid to budget adjustments in response to market conditions whenever contracts or amendments are awarded. The focus remains on delivering value and ensuring safety by incorporating enhancements in new schools. A level of effort has been put to address shelter requirements in the district at potential locations, except areas with elevated flood risks.

**New Projects:** Planning for 2026 projects is nearing completion, with recommendations being prepared to guide the next phase of project execution.

**Significant Achievement.** All projects were completed and school opened as scheduled, reflecting the team's ability to adhere to set timelines while maintaining project standards.

# THREE MONTH LOOK-AHEAD

The past quarter showcased a blend of achievements and forward planning, laying a solid groundwork for the upcoming procurement phase for projects of 2026. The deployment of advanced project management tools and the completion of planning for new projects are steps towards ensuring that the program continues to move in the right direction.

The next quarter will see active procurement of designers and contractors for the schools slated to open in 2026. This phase will involve thorough evaluation to ensure alignment with program objectives and standards.

# NEW AND MAJOR RENOVATION PROJECTS

FACILITIES ENGINEERING, DESIGN, AND CONSTRUCTION

# **NEW AND MAJOR RENOVATION PROJECTS**

# **Master Program Schedule (MPS)**

The following schedule reports provide summary-level details of the program. Additional details will be communicated through detailed project reports and schedule updates as projects near their planned start date.

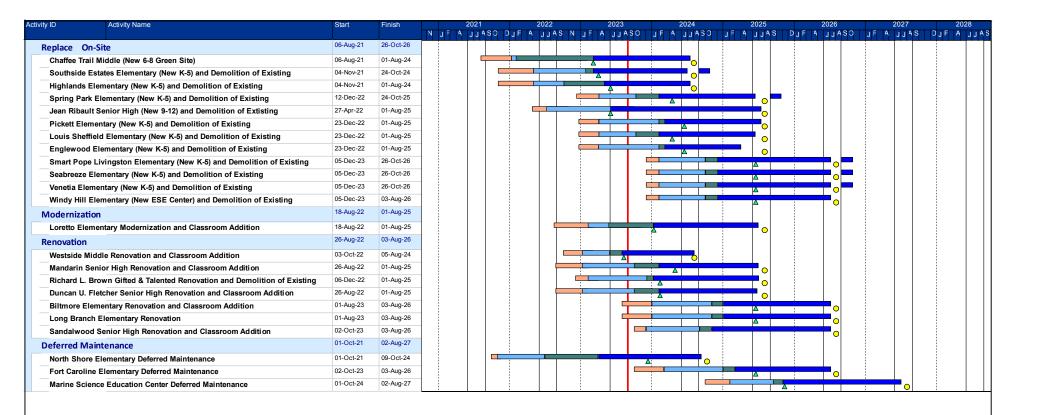

# **Project Stages**

The projects are broken down by the following major stages in the MPS:

- **Procurement.** In this stage, we hire the designer and, if applicable, the Construction Manager at Risk to assist with preconstruction
- **Design**. In this stage, when applicable, the designer (and Construction Manager) designs the project and secures the required permits from approval authorities
- Bid/GMP. In this stage, the scope of work is procured by a competitive procurement process.
- **Construction**. In this stage, the contractor builds the project, and at the end of this stage, an overlapping set of Owner move-in activities is executed
- **Demolition.** It may be shown on the schedule when its inclusion serves to clarify the project plan
- **Committed Occupancy Milestone.** It May be shown on a project where the facility is new or where it is needed to illustrate the projects plan
- Project Closeout. is generally not shown on the schedule

# **Cost Loading**

This schedule has been cost-loaded based on the total project budgets established in the Master Facilities Plan (MFP). Our process requires us to validate the availability of funds before committing contracts; accordingly, we are using a cost model based on a stipulated sum at stage starts. Using this basis, we have stipulated 10% of the total project budget when the designer is awarded and the remaining 90% of the total budget when the construction starts.

#### Latest Status/General Notes

The project is on track for an August 2024 opening. The casting of the last sections of the single-story tilt wall system is underway. The erection of structural steel above the cafeteria and gymnasium is wrapping up and all temporary bracing for the tilt wall system has been removed. The roof decking is nearly complete and ready for light weight concrete. The installation of underground storm system piping between the existing chiller plant to backside of the school is nearly complete. The installation of the underground electrical primary conduit system is making good progress.

#### Scope

The existing Highlands Elementary will be replaced on-site with a prototype school with a capacity of approximately 775 student stations. Site improvements for the new school will include parking, playfields, and playgrounds.

#### Latest Status/General Notes

The project is on track for an August 2024 opening. Concrete casting beds have been placed for tilt-up wall panels. Contractors are finishing below grade utility installations and foundation placements in preparation for placing the remaining building slab. Interior masonry continues in all buildings being retained. Formwork and rebar for wall panels is being set. Wall panels are currently in the process of being cast on site on the building slab and the casting beds.

**Contractor:** Auld and White Constructors

4. Contractor Award: 3/7/23

#### Scope

Correction of prioritized deficiencies identified in the facility condition assessments and through an ongoing review of code enforcement findings and maintenance work orders. Work may include repairs or replacement of paving, sidewalks, windows, doors, painting, roofing, canopies, building systems and interior finishes. An addition of 4 classrooms with a capacity of 80 student stations will be constructed to reduce FCI/portables. Construction will be separated from the active school by fencing and work will be closely coordinated with the school to limit risk and instructional impacts. At the end of the 2024-25 school year the addition will be ready to occupy. By December, the punch list will be completed, contractors will demobilize, and the project will be closed out.

#### Scope

Deferred maintenance items are for planned work which corrects deficiencies that have been postponed beyond the life expectancy of the system.

This project consists of the repair and replacement of mechanical electrical, plumbing, security and fire detection and alarm equipment as well as ongoing maintenance of finishes, ad in painting and flooring replacement. The deficiencies have been grouped according to the observed deficiency category and priority.

- ADA Compliance and Functional deficiencies - Deficiencies for components or systems that have failed before the end of expected life or are not the right application, size, or design

- Capital renewal items that were previously postponed beyond its regular life expectancy - Code compliance deficiencies are related to current codes

### 4. Contractor Award: 4/4/23

#### Scope

Correction of prioritized deficiencies identified in the facility condition assessments and through an ongoing review of code enforcement findings and maintenance work orders. Work may include repairs or replacement of paving, sidewalks, windows, doors, painting, roofing, canopies, building systems and interior finishes. Richard L. Brown Gifted & Talented will receive selective demo to reduce capacity and reduce FCI/portables.

Jul 2024

#### Latest Status/General Notes

The project is on track for an August 2025 opening. The Program verification documents have been submitted for DCPS signatures. AE is conducting site visits to verify scope and design requirements, while continuing on Design Development. Progress is being made with these key activities to ensure a successful project outcome. Project team continues to meet with various DCPS stakeholders.

#### Scope

The scope of work for each Year 1 Safety and Security Package has been finalized and is within budgetary requirements. The following is a prioritized (top to bottom) list that is included within the scope

- Establishing secure vestibule.
- Establishing a secure perimeter around core campus utilizing buildings, fencing, and gates.
- Adding impact-resistant, reflective film to interior and exterior windows as needed.
- Designating hard-to-see (hard corner) areas in classrooms to create shelter zones.
- Providing improved lighting around main accessible campus perimeters and parking areas.
- Adding vehicle control / access denial measures to protect main building entrance.
- Removing trees and shrubbery close to buildings.
- Adding building numbers per District standard.
- Updating replacing room signage (FISH plans).
- Replacing/supplementing existing access control system (MCAS) at main building entrance.
- Adding Badgepass access controls to select doors for staff use.

#### Scope

The scope of work for each phase 2 Safety and Security Package is still being developed within budgetary requirements. The following is a prioritized (top to bottom) list that is being considered.

- Establishing secure vestibule.
- Establishing a secure perimeter around core campus utilizing buildings, fencing, and gates.
- Adding impact-resistant, reflective film to interior and exterior windows as needed.
- Designating hard-to-see (hard corner) areas in classrooms to create shelter zones. - Providing improved lighting around main accessible campus perimeters and parking areas.
- Adding vehicle control / access denial measures to protect main building entrance. - Removing trees and shrubbery close to buildings.
- Adding building numbers per District standard.
- Updating replacing room signage (FISH plans).
- Replacing/supplementing existing access control system (MCAS) at main building entrance.
- Adding Badgepass access controls to select doors for staff use.

#### Scope

The scope of work for each Year 3 Safety and Security Package is still being developed within budgetary requirements. The following is a prioritized (top to bottom) list that is being considered.

- Establishing secure vestibule.
- Establishing a secure perimeter around core campus utilizing buildings, fencing, and gates.
- Adding impact-resistant, reflective film to interior and exterior windows as needed.
- Designating hard-to-see (hard corner) areas in classrooms to create shelter zones.
- Providing improved lighting around main accessible campus perimeters and parking areas.
- Adding vehicle control / access denial measures to protect main building entrance.
- Removing trees and shrubbery close to buildings.
- Adding building numbers per District standard.
- Updating replacing room signage (FISH plans).

#### Schedule

\*Above dates that occur before this report run date are actual dates.

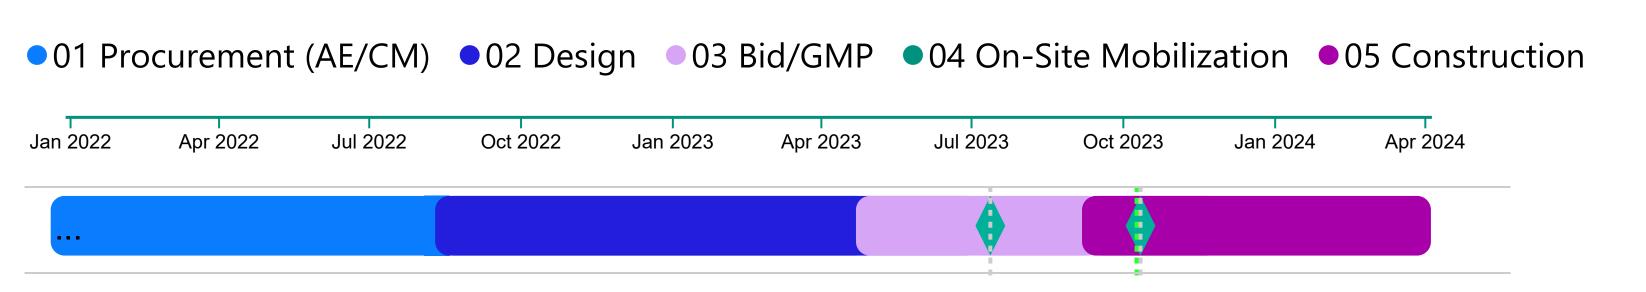

Dates occuring after run date are forecasted.
