What's The Difference Between

These are children who are highly achieving academically and need to be in a challenging program. These children are talented, gifted, and need the extra educational experiences that are offered in a gifted and talented program. They are children who are very bright and require a more in-depth curriculum of skills than is available in the regular curriculum. The academic gifted program is for children who are high achieving academically and need to be challenged in their studies. They require an enriched curriculum that will help them reach their full potential.

We provide our students with opportunities that are not available in the regular curriculum. Our students participate in advanced placement courses, take courses in specialized areas, and participate in extracurricular activities that challenge their minds and stretch their abilities.

At Jackonville Beach Elementary School, we believe in providing our students with a well-rounded education that prepares them for success in the future. We strive to meet the needs of all students and provide them with the tools they need to succeed.

In summary, Jackonville Beach Elementary School is a place where students are challenged to reach their full potential. We provide a supportive and challenging environment that helps our students achieve academic excellence and prepares them for success in the future.
