Dear upcoming 7th Grade Math II students,

Duval County offers a lot of math review resources which allow you to brush up on your skills. The JWJ Math Department has streamlined the process for you and created an OPTIONAL review plan for the summer prior to starting Math II your 7th grade year.

To make sure you have a good foundation for this upcoming year we HIGHLY recommend you start with the Khan Academy program. This program is very user friendly, it diagnoses and helps you fill in any math gaps that you may have, and it also allows for enrichment to challenge yourself. Follow the instructions below to start the Khan Academy program.

1) Go to www.khanacademy.org and create a username if you do not already have one.
2) After you have made a username go to www.khanacademy.org/coaches
3) In the “Add a Coach” field, enter the class code UT3SMJ.
4) Click home to be taken back to your main student dashboard, where you can then discover what lies ahead for you in the program.

The math teachers at JWJ know it can be VERY TEMPTING to not write down your notes or show your work when you are doing online questions, but this is the WORST habit you can ever acquire. Please WRITE DOWN the sample problems and notes from the videos and follow up questions in a spiral notebook. We promise this practice of writing down your work and notes will pay off in the end. We would then encourage you to keep this notebook so you may use it in class at the start of the school year.

If you earned an average of C or below this past year in 6th grade Math I, we recommend you begin working on Kahn Academy an average of 30 minutes a day starting towards the beginning of July. If you earned an average of a B or higher we recommend you start towards mid-July and spend on average 45 minutes every other day with the program. The more effort you put in the summer, the more prepared you will be for Math II and the more successful you will be in the course.

If you have any problems or questions about what you or your child should be doing over the summer to prepare for 7th grade Math II please contact Mr. Peterson at petersonm2@duvalschools.org
