Welcome!

We appreciate your interest in our school theme of providing an exemplary education for Academically Talented and Gifted students. We recognize that making a school placement decision requires a great deal of careful planning and consideration. In addition to the general information session and tour, we have included a list of Math and Language Arts Standards that students will need to have mastered in the previous grade level if they are to have a high probability of success in the upcoming grade.

Your attendance at today’s session is an integral component of your decision-making process. As you reflect on today’s information and experience, please consider the following questions:

- Does my child indicate a need for an advanced academic setting?
- Have I received feedback from my child’s current teacher that supports a placement into a more rigorous program?
- Is my child reading on or above grade level?
- Is my child consistently high-performing in all subject areas?
- How does my child handle academic challenge?
- How will we, as a family, incorporate student success skills into our daily and weekly routines?
- How will we, as a family, incorporate the travel/transportation into our daily routines?
- What steps will I take if this placement does not meet my child’s greatest need(s)?

Thank you for attending today and we hope you enjoyed the visit. Please contact us at (904) 247-5942 if you have any additional questions or concerns.
