MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2021

The management of the Duval County Public Schools has prepared the following discussion and analysis to provide an overview of the District's financial activities for the fiscal year ended June 30, 2021. The information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions and should be considered in conjunction with the District's financial statements and notes to financial statements found immediately following the MD&A.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2020-21 fiscal year are as follows:

- The District's total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources on June 30, 2021, by \$380,039,003 (net position).
- In total, net position increased \$7,519,416 or 2.0 percent, from \$372,519,587 as of June 30, 2020, to \$380,039,003 as of June 30, 2021.
- The District's total government-wide revenues of \$1,434,119,268 were comprised of general revenues of \$1,346,746,645 or 93.9 percent of total revenues, and program specific revenues from charges for services, operating grants and contributions, and capital grants and contributions of \$87,372,623 or 6.1 percent of total revenues. This compares to the prior fiscal year with government-wide revenues of \$1,315,060,542 which were comprised of general revenue, \$1,244,934,626, or 94.7 percent of total revenues, and charges for services, operating grants and contributions, and capital grants and contributions of \$70,125,916, or 5.3 percent of total revenues.
- The District's total government-wide expenses of \$1,426,609,214 were offset by program specific revenues of \$87,372,623. The remaining expenses were funded from general revenues. In the prior fiscal year, total expenses of \$1,334,173,631 were offset with program specific revenues of \$70,125,916.
- The District's capital asset-related long-term debt decreased by a net amount of \$11,516,998, or 3.1 percent from \$374,252,251 on June 30, 2020, to \$362,735,253 on June 30, 2021. The District's investment in capital assets (net of accumulated depreciation) decreased by \$26,257,219, or 2.8 percent, from its balance of \$947,573,294 on June 30, 2020, to \$921,316,075 on June 30, 2021.
- The District's governmental funds reported combined ending fund balances of \$316,296,888, an increase of \$78,806,099, or 33.2 percent, in the 2020-21 fiscal year in comparison with the prior fiscal year's fund balance of \$237,490,789.
- The General Fund total fund balance was \$109,057,241 as of June 30, 2021, and represents a decrease of \$4,899,282, or 4.3 percent, as compared to the prior fiscal year's balance of \$113,956,523.
- The General Fund assigned and unassigned fund balance totaled \$80,772,905 at June 30, 2021, or 7.9 percent of total General Fund revenues. For the 2019-20 fiscal year, the General Fund assigned and unassigned fund balance in the General Fund was \$82,358,505 or 8.1 percent of total General Fund revenues.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components: (1) government-wide financial statements; (2) fund financial statements; and (3) notes to financial statements. This report also includes supplementary information intended to furnish additional details to support the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental and business-type activities of the District presented on the accrual basis of accounting. The statement of net position provides information about the District's financial position, its assets, liabilities, and deferred inflows/outflows of resources, using an economic resources measurement focus. Assets plus deferred outflows of resources, less liabilities and deferred inflows of resources, equals net position, which is a measure of the District's financial health. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

The government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities).

The government-wide statements present the District's activities in the following categories:

- Governmental activities – This represents most of the District's services, including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the State's education finance program provide most of the resources that support these activities.
- Business-type activities – this represents services and activities of the Florida School Retiree Benefits Consortium (FSRBC) enterprise fund.
- The District presents aggregate financial information for 35 charter schools, which are separate legal entities, in this report. Although legally separate organizations, the component units are included in this report because they meet the criteria for inclusion provided by generally accepted accounting principles. Financial information for these component units is reported separately from the financial information presented for the primary government.
- The Duval School Board Leasing Corporation (Leasing Corporation), although also a legally separate entity, was formed to facilitate financing for the acquisition of facilities and equipment for the District. Due to the substantive economic relationship between the District and the Leasing Corporation, the Leasing Corporation has been included as an integral part of the primary government.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This contrasts with the entity-wide perspective contained in the government-wide statements. The District's funds may be classified within one of the broad categories discussed below.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing the government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General Fund, Special Revenue – Other Federal Programs Fund, Special Revenue – Food Service Fund, Special Revenue – Federal Education Stabilization Fund, Debt Service – Other Debt Service Fund, Debt Service – ARRA Economic Stimulus Fund, and Capital Projects – Local Capital Improvement Fund. Data from the other governmental funds are combined into a single, aggregated presentation.

Proprietary Funds: Proprietary funds may be established to account for activities in which a fee is charged for services. The District maintains two different types of proprietary funds - internal services funds and an enterprise fund. Internal service funds are used to accumulate and allocate costs internally among the District's various functions. The District uses its internal service funds to account for its self-insurance programs, including workers' compensation, general liability, automobile liability, health and hospitalization, and District printing operations. The District's internal service funds are included within governmental activities in the government-wide financial statements because the services predominantly benefit the District's governmental functions. The internal service funds are combined into a single, aggregated column in the proprietary fund financial statements. The enterprise fund is used to account for resources held as fiscal agent for the Florida School Retiree Benefits Consortium (FSRBC).

Fiduciary Funds: Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. The District's fiduciary funds are the trust fund used to account for Gear Up Scholarship programs and the agency funds used to account for the resources held in the school internal funds for student activities.

Notes to the Basic Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's other postemployment benefits and net pension liabilities.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial health. The following is a summary of the District's net position as of June 30, 2021, compared to net position as of June 30, 2020:

Net Position, End of Year

	Governmental Activities		Business-Type Activities		Total	Total
	6/30/2021	6/30/2020	6/30/2021	6/30/2020	6/30/2021	6/30/2020

The largest portion of the District's net position is investment in capital assets (e.g., land; buildings; furniture, fixtures, and equipment), less any related debt still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, the resources used to repay the debt must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities.

The restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The deficit unrestricted net position was the result, in part, of accruing certain long-term liabilities (such as compensated absences, pension, and other postemployment benefits) that are funded on a pay-as-you-go basis. However, the District has sufficient current assets to meet current liabilities.

The State's Florida Education Finance Program (FEFP) and local property taxes provide the majority of the District's revenues for current operations. These revenues are included in general revenues, which provide

**DUVAL COUNTY PUBLIC SCHOOLS
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2021**

EXHIBIT A-1, PAGE 1-6

93.9 percent of total revenues, whereas program revenues provide only 6.1 percent. Most program revenues (85.5 percent) are in the food services activity.

Revenues by Source - Governmental Activities

The FEFP funding formula is used to allocate State revenue sources for current District operations and, utilizing student enrollment data, is designed to maintain equity in funding across all Florida school districts recognizing varying (1) local property tax bases; (2) education program costs; (3) costs of living; and (4) costs for equivalent educational programs due to sparseness and dispersion of the student population. Grants and contributions not restricted to specific programs revenues increased by \$23,503,333, or 3.0 percent, primarily due to an increase in FEFP revenues from the State. Revenues from property and sales taxes increased by \$60,074,180, or 13.5 percent, because of increases in taxable property values and the implementation of a half-cent sales tax for schools.

**2020-21 Expenses -
Governmental Activities**

Direct instructional activities represent the majority of the District's expenses, representing approximately

60.0 of total expenses of governmental activities. Instructional activities expenses increased \$64,733,497 or 8.2 percent, partially due to increased expenditures for salaries and benefits. Overall, total expenses increased by \$92,435,583 or 6.9 percent.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted previously, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. Specifically, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as it represents the portion of fund balance that has not been limited to a particular purpose by an external party, the District, or a group or individual delegated authority by the Board to assign resources for particular purposes.

As of June 30, 2021, the District's governmental funds reported combined ending fund balances of \$316,296,888 or an increase of \$78,806,099 in comparison with the prior fiscal year. Fund balance increases were attributable mostly to increased funding for capital projects. Approximately 22.9 percent of total fund balance is unassigned, \$66,195,864, which is available for spending at the District's discretion. The total governmental fund balance can be broken down as follows: \$7,833,334 as nonspendable, \$227,690,648 as restricted, \$14,577,041 as assigned, and \$66,195,864 as unassigned. See the financial statement notes for more detail on the breakdown and category status (Note IV.L., Fund Balance Reporting).

The District's total governmental fund revenues increased by \$115,884,512 or 8.8 percent in comparison to the prior fiscal year. The District's total expenditures increased by \$81,718,931 or 6.5 percent.

Major Governmental Funds

The General Fund is the District's chief operating fund. At the end of the current fiscal year, unassigned fund balance is \$66,195,864, while the total fund balance is \$109,057,241. As a measure of the General Fund's liquidity, it may be useful to compare the total assigned and unassigned fund balances to General Fund total revenues. The total assigned and unassigned fund balance is 7.9 percent of the total General Fund revenues, while total fund balance represents 10.6 percent of total General Fund revenues.

Total General Fund fund balance decreased by \$4,899,282 or 4.3 percent, as compared to the prior fiscal year. Key factors impacting the change in fund balance are expenditures increased \$43,748,519, while revenues only increased \$10,757,24. Revenue increases are mainly attributed to Florida Education Finance Program, while expenditures increases are attributed to Charter Schools purchase services and technical purchases services.

The Special Revenue – Other Federal Programs Fund had revenues of \$97,116,425, transfers in of \$28,712, and expenditures of \$97,145,137. Funding was mainly used for instruction. Because grant revenues are not recognized until expenditures are incurred, this fund does not accumulate a fund balance.

The Special Revenue – Federal Education Stabilization Fund had revenues and expenditures of \$39,988,023. Funding was mainly used for instruction and student support services. Because grant revenues are not recognized until expenditures are incurred, this fund does not accumulate a fund balance.

The Special Revenue – Food Service Fund had a total fund balance of \$28,074,011. The nonspendable portion of the fund balance of \$1,980,466 is for United States Department of Agriculture donated food and supplies inventories, and the remainder of the fund balance of \$26,093,545 is restricted for the preparation and distribution of student and adult meals. Of this amount, \$983,336 has been encumbered for specific purposes. The increase in fund balance of \$11,240,174, as compared to the previous fiscal year fund balance, is mainly due to decreased expenditures for purchased services for food service management services because of increased on-line learning and capital expenditures.

The Debt Service – Other Debt Service Fund has a total fund balance of \$39,139,301 which is restricted for the payment of debt service on all certificates of participation issued. The fund balance increased \$3,765,301, mainly due to increased investments with fiscal agents.

Debt Service – ARRA Economic Stimulus Fund has a total fund balance of \$35,817,421, which is restricted for the payment of debt principal, interest, and related costs of Qualified School Construction Bonds and 2012 Qualified Zone Academy Bonds. The fund balance increased \$4,726,803 mainly due to increased investments with fiscal agents.

The Capital Projects – Local Capital Improvement Fund has a total fund balance of \$39,338,508, which is restricted for the acquisition, construction, and maintenance of capital assets. The fund balance increased \$14,023,311 due to the increases in property valuations and property tax collection. As of June 30, 2021, \$19,599,867 of total fund balance was encumbered for specific projects.

Proprietary Funds

The District's proprietary funds financial statements are presented on the same accounting basis as the government-wide financial statements. The Internal Service Funds' net position totaled \$88,266,583, of

which \$76,031,296 was reported as unrestricted for employee health insurance benefits and \$12,235,287 was reported as unrestricted for worker's compensation, at the end of the current fiscal year. The District experienced an decrease in net position of \$14,134,235, or 13.8 percent, mainly due to expenditures for health claims exceeding premium revenue. The net position of the Florida School Retiree Benefits Consortium was virtually unchanged with a decrease of \$6,745.

Fiduciary Funds

The District's Private-Purpose Trust Fund had a fiscal year-end net position of \$54,026, a decrease of \$994.

The District also has Agency Funds which are used to account for resources held for the school internal funds. The Agency Funds had assets of \$7,194,092 on June 30, 2021, an increase of \$41,302, or 0.6 percent in comparison to the prior fiscal year.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the fiscal year, the District revises its budget to address unanticipated changes in revenues and expenditures. Differences between the General Fund original budget and the final amended budget were not significant for either revenues or expenditures. Projected revenues decreased by \$30,562,077, or 2.9 percent (\$1,061,364,054 to \$1,030,801,976). Projected expenditures decreased by \$40,925,103, or 3.4 percent (\$1,187,025,605 to \$1,146,100,502) mainly due to fluctuations and adjustments in District's requirements, initiative, and programs.

Actual General Fund revenues of 1,026,259,738 were \$4,542,238, or 0.4 percent less than final budgeted amounts, and actual expenditures of \$1,065,445,456 were \$80,655,046, or 7.0 percent less than anticipated. The District continuously reviews cost saving measures and incremental increases in expenditures to avoid budget shortfalls. The variance between the General Fund's budgeted and actual expenditures reflects the District's practice to fully appropriate all potential obligations. The actual ending fund balance exceeded the estimated fund balance in the final budget by \$72,534,483. This provides maximum flexibility in funding for the General Fund to meet shortfalls in revenue and additional expenditure requirements.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The District's investment in capital assets (net of accumulated depreciation) as of June 30, 2021, totaled \$921,316,075. The capital assets include land; construction in progress; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; audio visual materials; and computer software. The investment in capital assets (net of accumulated depreciation) decreased during the current fiscal year by \$26,257,219, or 2.8 percent.

Major capital asset additions during the current fiscal year included new equipment, construction, remodeling, renovations, and site improvements at several schools and other facilities, including ongoing district-wide infrastructure and roofing projects.

Additional information on the District's capital assets can be found in the notes to the financial statements (Note IV.E., Changes in Capital Assets).

Long-Term Debt

The District had total long-term debt outstanding of \$362,735,253 at the end of the current fiscal year. The debt consisted of State School Bonds and Certificates of Participation, which include Qualified Zone Academy Bonds (QZABs) and Qualified School Construction Bonds (QSCBs), as shown below:

Long-Term Debt Outstanding at Year-End

	2021	2020	Increase (Decrease)

Total Long-Term Debt	\$ 362,735,253	\$ 374,252,251	\$ (11,516,998)

The District's total long-term debt decreased 3.1 percent. Changes in long-term debt were comprised of scheduled principal payments and related amortizations.

Additional information on the District's long-term debt can be found in the notes to the financial statements (Note IV.F., Long-Term Liabilities).

OTHER MATTERS OF SIGNIFICANCE

The following factors were considered in preparing the District budget for the 2020-21 fiscal year:

- The District relies heavily on local property taxes collected as a major source of funding. The housing market within Duval County has improved during the 2020-21 fiscal year. The median sales price of existing homes increased by 15.2 percent. The certified taxable value of property in the County for fiscal year 2020-21 was \$79,583,630,855. The certified value for fiscal year 2021-22 is \$85,200,472,649.
- The District's total millage rate decreased from 6.15 in fiscal year 2019-20 to 5.905 mills for the 2020-21 and again decreased in fiscal year 2021-22 to 5.905.
- The total District budget for 2021-22 is \$2.120 billion compared to \$1.954 billion in 2020-21. This is an 8.5 percent increase attributable to additional Federal, State, and Local funding.
- Voters approved a half cent sales tax referendum to fund upgrading the District's ageing schools through repairs and modernization and to keep schools safe. Sales tax revenue for fiscal year 2020-21 was \$50.5 million. The tax is expected to raise nearly \$2 billion over the next 15 years.
- In the 2020-21 fiscal year, there were 35 charter schools. Full-time equivalent (FTE) dollars flow to the charter schools based on the number of FTE students. Over the last five years, charter school FTE has grown from 10,834 in fiscal year 2014-15 to 19,152 in fiscal year 2020-21. The District is marketing public schools and programs to attract students back to District schools. Magnet schools specializing in college preparation or accelerated learning, visual and performing arts, military and information technology are offered at District Schools.
- The District received Federal funding under the Coronavirus Aid, Relief, and Economic Security Act (CARES) to provide assistance for necessary expenditures incurred due to the COVID-19 public health emergency beginning March 1, 2020. To follow Federal health and safety guidelines, virtual learning for all students was implemented March 23, 2020. The District continues to monitor the safety and well-being of its students and staff and will move schools to virtual learning if necessary.

DUVAL COUNTY PUBLIC SCHOOLS
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES
OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2021

Net Change in Fund Balances - Governmental Funds **\$ 78,806,100**

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of these assets is allocated over their estimated useful lives as depreciation expense. This is the amount of depreciation expense and adjustments in the excess of capital outlays in the current period.

Capital Outlay - Facilities, Acquisition and Construction	\$ 20,521,785	
Capital Outlay - Other	14,867,948	
Less, Depreciation Expense	<u>(62,833,089)</u>	(27,443,356)

Capital assets donated to the District increase net position in the government-wide financial statements, but are not financial resources and, therefore, are not reported in the governmental funds.		1,192,882
---	--	-----------

Government-wide statement are affected only to the extent these amounts differ. Long-term proceeds provide current financial resources to the governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of long-term debt is an expenditure in the governmental fund, but the repayment reduces long-term liabilities in the statement of net position. This is the effect of these transactions.

Payment of principal - COP	\$	10,482,932
----------------------------	----	------------

Governmental funds report the effect of premiums, discounts, and prepaid insurance in the year debt is issued, but these amounts are deferred and amortized over the life of the debt in the statement of activities. The following details the effects of premiums and discounts in the current period.

Amortization of Premiums	\$ 1,034,872	
Amortization of Discounts	<u>(807)</u>	1,034,065

Deferred outflow of resources and inflows of resources on refunded debt are reported in the governmental funds in the year debt is issued, but deferred and amortized over the life of the debt in the statement of activities.

Deferred Outflows on Certificates of Participation Issued		(1,150,434)
---	--	-------------

In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensation absences (i.e., vacation and sick leave) earned in excess of the amount used in the current period.

81,113

Pension benefit costs are recorded in the statement of activities under the full accrual basis of accounting, but are recorded in the governmental funds when contributions to the plan are paid. This is the net amount of contributions made in excess of pension benefits earned during the period.

Change in Pension Liability	\$ (91,581,443)	
Change in Pension Deferred Outflows	23,146,724	
Change in Pension Deferred Inflows	<u>24,700,433</u>	(43,734,286)

Other postemployment benefits costs are recorded in the statement of activities under the full accrual basis of accounting, but are not recorded in the governmental funds until paid. This is the net increase in the other postemployment benefits payable liability for the current fiscal year.

Change in OPEB liability	\$ (19,915,700)	
Change in OPEB Deferred Outflows	11,233,696	
Change in OPEB Deferred Intflows	<u>11,064,022</u>	2,382,018

Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net income of internal service funds is reported with governmental activities.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on the non-fiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other non-exchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees charged to external customers for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the Duval County School District's (District) governmental activities and for each segment of the business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense is allocated to the various functions.

B. Reporting Entity

The Duval County District School Board (Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The District is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education (FDOE), and is governed by State law and State Board of Education (SBE) rules. The governing body of the District is the Board, which is composed of seven elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Duval County, Florida.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any legally separate entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading.

Based on the application of these criteria, the following component units are included within the District's reporting entity:

Blended Component Unit Blended component units are, in substance, part of the District's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the District. The Duval School Board Leasing Corporation (Leasing Corporation) was formed to facilitate financing for the acquisition of facilities and equipment as further discussed in a subsequent note. Due to the substantive economic relationship between the District and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.

Discretely Presented Component Units The component unit columns in the government-wide financial statements include the financial data of the District's other component units. The District's component units consist of charter schools. A separate column is used to emphasize that they are legally separate from the District.

The charter schools are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not-For-Profit Corporation Act, and Section 1002.33, Florida Statutes. The charter schools operate under a charter approved by their sponsor, the Duval County School Board. The 35 charter schools operational during the fiscal year 2020-21: Biscayne High School, BridgePrep Academy - Duval County, Cornerstone Classical Academy (new), Duval Charter High School at Baymeadows, Duval Charter School at Baymeadows, Duval Charter Scholars Academy, Duval Charter School at Coastal, Duval Charter School at Flagler Center, Duval Charter at Mandarin, Duval Charter at Southside, Duval Charter School at Westside, Duval Mycro School of Integrated Academics and Technologies Inc., Florida Cyber Charter School at Duval, Global Outreach Charter Academy, Global Outreach Academy High School (new), Jacksonville Classical Academy (new), KIPP Jacksonville Inc., Lone Star High School, River City Science Academy – Innovation, River City Science Academy K-5, River City Science Academy - Mandarin, River City Science Academy Middle/High, San Jose Preparatory, San Jose Primary School (new), Seacoast Charter Academy Inc., Seaside Charter School K-8, Seaside Charter North Campus, Seaside Community Charter School, Seventh Generation Classical Academy (new), Somerset Academy Eagle Campus (Elem), Somerset Academy Middle Eagle Campus, SOS Academy, Tiger Academy, Waverly Academy, and Wayman Academy of the Arts.

The charter schools are component units of the District because the District is financially accountable for the charter schools. The District established the charter schools by approval of their charters, which is tantamount to the initial appointment of the charter schools, and there is the potential for the charter schools to impose specific financial burdens on the District. In addition, pursuant to the Florida Constitution, the charter schools are public schools, and the District is responsible for the operation, control, and supervision of public schools within the District. Finally, the nature and significance of the charter schools' relationships with the District are such that their exclusion would cause the District basic financial statements to be misleading.

The financial data reported on the accompanying statements was derived from the charter schools' unaudited financial statements for the fiscal year ended June 30, 2021. The charter schools' financial statements are filed in the District's administrative offices at 1701 Prudential Drive, Jacksonville, Florida 32207-8182.

C. Basis of Presentation: Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise fund. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The effects of interfund activity have been eliminated from the government-wide financial statements except for interfund services provided and used and net residual amounts between governmental and business-type activities.

D. Basis of Presentation: Fund Financial Statements

The fund financial statements provide information about the District's funds, including the fiduciary funds and blended component unit. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

General Fund – to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State or City that are legally restricted to be expended for specific current operating purposes.

Special Revenue – Other Federal Programs Fund – to account for certain Federal grant program resources.

Special Revenue – Federal Education Stabilization Fund – to account for Federal grant program under the Coronavirus Aid, Relief, and Economic Security Act and Education Relief fund.

Special Revenue – Food Service Fund – to account for the financial resources related to the preparation, distribution, and sale of breakfast, lunch, and snacks to District students and personnel and related Federal grant program resources.

Debt Service – Other Debt Service Fund – to account for the accumulation of resources for, and the payment of, debt principal, interest, and related costs for the District's Certificates of Participation and the 2005 and 2014B Qualified Zone Academy Bonds.

Debt Service – ARRA Economic Stimulus Fund – to account for the accumulation of resources for, and payment of, debt principal, interest, and related costs of Qualified School Construction Bonds and 2012 Qualified Zone Academy Bonds.

Capital Projects – Local Capital Improvement Fund – to account for the financial resources generated by the local capital improvement ad valorem tax levy to be used for educational capital outlay needs, including new construction, renovation, and remodeling projects.

Additionally, the District reports the following proprietary and fiduciary fund types:

Internal Service Funds – to account for the District's individual workers' compensation, health self-insurance programs, and the District's printing department operations.

Private-Purpose Trust Fund – to account for resources of the William Raines High School's Gear Up Scholarship Trust Fund for scholarship recipients who are graduating seniors attending a 2-year or 4-year public or private institution. These activities are excluded from the government-wide financial statements because the District cannot use these assets to finance its operations.

Enterprise Fund - The District is a member of, and fiscal agent for, the Florida School Retiree Benefits Consortium (FSRBC). FSRBC offers retiree benefits (Medicare advantage and

supplement programs). FSRBC is governed by a board of directors composed of nine (9) members selected by the Independent Benefits Council (IBC) Board of Directors representing the Florida School Boards Association, Inc.; Florida Association of District School Superintendents, Inc.; Florida Association of School Administrators, Inc.; Florida Education Association; retirees from public school districts; and benefit managers from public school districts. As fiscal agent, the District has established an enterprise fund to account for FSRBC's resources and operations.

Agency Funds – School Internal Accounts - to account for resources of the school internal funds, which are used to administer monies collected at schools in connection with school, student athletic, class, and club activities. These activities are excluded from the government-wide financial statements because the District cannot use these assets to finance its operations.

During operations, the District has activity between funds for various purposes. Any residual balances outstanding at fiscal year-end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in and out. While reported in fund financial statements, transfers between the funds included in governmental activities are eliminated in preparation of the government-wide financial statements.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized as soon as they are both measurable and available. Revenues are available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for

this revenue source (within 60 days of year-end). Property taxes and interest associated with the current fiscal period is susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditures are generally recognized when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, claims and judgments, pension benefits, other postemployment benefits, and compensated absences, are only recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The proprietary and private-purpose trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency funds have no measurement focus but utilize the accrual basis of accounting for reporting assets and liabilities.

The charter schools, except for Tiger Academy, are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities. Tiger Academy is accounted for as a not-for-profit organization and uses the not-for-profit accounting model.

F. Budgetary Information

The Board follows procedures established by State statutes and SBE rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by State law and SBE rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, student support services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The District's cash and cash equivalents are cash on hand, demand deposits, cash with fiscal agent, and short-term liquid investments with original maturities of 3 months or less from the date of acquisition. Investments classified as cash equivalents include amounts placed with the State Board of Administration (SBA) in Florida PRIME and amounts held in money market mutual funds.

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

2. Investments

Investments consist of amounts placed in the SBA debt service accounts which are restricted for debt service purposes, amounts placed with the SBA for participation in the Florida PRIME investment pool created by Section 218.405, Florida Statutes, the State Treasury Special Purpose Investment Account (SPIA) investment pool authorized in Section 17.61(1), Florida Statutes, and those made locally. These investment pools operate under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME, which the SBA indicates is an external investment pool, are like money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at amortized cost, which approximates fair value.

The District's investments in the SPIA investment pool managed by the Florida Department of Financial Services, Division of Treasury, represent ownership of a share of the pool, not the underlying securities. The District's participation is voluntary, and the investments are reported at the fair value of the investment pool, with a fair value factor of 0.9840 on June 30, 2021.

Investments made locally consist of money market mutual funds, obligations of United States Government agencies and instrumentalities, and U.S. Treasury securities and are reported at fair value or amortized cost. Types and amounts of investments held at fiscal year-end are described in a subsequent note.

3. Inventories

Inventories consist of expendable supplies held for consumption during District operations. Inventories are stated at cost on the moving weighted-average basis, except that United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used rather than when purchased.

4. Restricted Assets

Certain assets held by a trustee, in the name of the District, in connection with Certificates of Participation (COPs), Qualified Zone Academy Bonds (QZABs) and Qualified School Construction Bonds (QSCBs) financing arrangements, are classified as restricted assets on the statement of net position and balance sheet. These assets are set aside for repayment of debt issues at maturity as required by applicable debt covenants and principal and interest payments as they come due.

5. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing \$750 or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at acquisition value at the date of donation. Land and buildings acquired or constructed prior

to July 1, 1969, were valued at appraised value when historical costs could not be determined.

Capital assets for Governmental and Business-type Activities are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Improvements Other Than Buildings	10 - 40 years
Buildings and Fixed Equipment	10 - 50 years
Furniture, Fixtures, and Equipment	5 - 15 years
Motor Vehicles	5 - 10 years
Audio Visual Materials	5 years
Computer Software	5 years

Current year information relative to changes in capital assets is described in a subsequent note.

6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. The District has three items that meet this criterion, deferred outflows related to debt, pensions, and OPEB. The net carrying amount on debt refunding reported in the government-wide statement of net position results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred outflows of resources related to pensions and OPEB are described in subsequent notes.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that meet this criterion, deferred inflows related to pensions and OPEB, which are described in subsequent notes.

7. Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Debt premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds and certificates of participation payable are reported net of the applicable premium or discount.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize debt premiums and discounts during the current period. The face amount of debt issued and premiums on debt issuance are reported as other financing sources.

Changes in long-term liabilities for the current year are reported in a subsequent note.

8. Pensions

The District participates in the Florida Retirement System (FRS). In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the FRS defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS and the HIS fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The District's retirement plans, and related amounts are described in a subsequent note.

9. Net Position Flow Assumption

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

10. Fund Balance Flow Assumptions

The District may fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

11. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The District reported no committed fund balance on June 30, 2021.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. Board Policy 7.10 (Policy) states that the Board or, by delegation of the Board, the Superintendent or Superintendent's designee, may assign fund balance. The Board assigned fund balance for specific purposes, such as for the Extended Day Program. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

The Policy also states that the Superintendent shall budget an amount equal to 3 percent of total estimated General Fund revenue as an unassigned amount to be set aside for use in emergency situations, and that the Superintendent may recommend to the Board an additional amount to be set aside for use in emergency circumstances. Emergency circumstances are defined and include events that are non-routine in nature and unforeseen.

In addition, the Policy states that the District shall endeavor to maintain a minimum fund balance budget in compliance with Section 1011.051, Florida Statutes, which requires that the District maintain an assigned and unassigned actual General Fund balance that is sufficient to address normal contingencies. As of June 30, 2021, the actual General Fund assigned and unassigned fund balance of \$80,772,905 was 7.9 percent of General Fund revenues.

H. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

2. State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the FDOE under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the FDOE. The FDOE performs certain edit checks on the reported number of FTE and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting during specified time periods following the date of the original reporting. Such amendments may impact funding allocations for subsequent fiscal years. The FDOE may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such

adjustments are treated as reductions or additions of revenue in the fiscal year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. SBE rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The FDOE generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the FDOE.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

3. District Property Taxes

The Board is authorized by State law to levy property taxes for District school operations and capital improvements.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Duval County Property Appraiser, and property taxes are collected by the Duval County Tax Collector.

The Board adopted the tax levy for the fiscal year beginning July 1, 2020, on September 9, 2020. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Duval County Tax Collector at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

4. Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible

expenditures have been incurred. The FDOE may require adjustments to subsequent fiscal period expenditures and related revenues based upon an audit of the district's compliance with applicable Federal awards requirements. Normally, such adjustments are treated as reductions of expenditures and related revenues in the fiscal year when the adjustments are made.

5. Compensated Absences

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

6. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds for self-insurance are charges to the District for employee health insurance and workers' compensation premiums. The principal operating expenses include insurance claims and administrative expenses and fees. The principal operating revenues and expenses of the District's Internal Service Fund for printing department operations are charges to District departments to recover the costs of printing operations on a cost-reimbursement basis and the costs of operating the department. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

I. Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the financial statement date and the reported amounts of revenues and expenses or expenditures during the reporting period. Actual results could differ from those estimates.

II. ACCOUNTING CHANGES

Changes in Reporting Entity

During the 2020-21 fiscal year, the District added five new charter schools, Cornerstone Classical Academy, Global Outreach Academy High School, Jacksonville Classical Academy, San Jose Primary School, and Seventh Generation Classical Academy, which are discretely presented component units. At the beginning of fiscal year 2020-21, San Jose Academy Middle School and San Jose Preparatory High School merged. The two schools' net positions were added together

and presented under San Jose Preparatory. Seventh Generation Classical Academy voluntarily closed on June 5, 2021.

III. PRIOR PERIOD ADJUSTMENTS

Restatement for Pension Liability

The governmental activities net position beginning balance on July 1, 2020, was restated to correct prior year pension liability.

Net Position - Beginning	\$	372,501,039
Adjustment for Pension Liability		9,362
Net Position - Beginning Restated	\$	372,510,401

Restatement for Charter Schools Beginning Net Postion

The adjustments to component unit beginning net position for changes in reporting entity are as follows:

Net Position, Beginning, as Previously Reported	\$	(781,679)
Audit Adjustments for Continuing Charter Schools		(734,777)
Add beginning net positions for:		
Seventh Generation	\$	10,272
Cornerstone Classical Academy		(341,327)
Jacksonville Classical Academy		(2,566,597)
Net Position (Deficit) - Beginning - Restated		<u>(2,897,652)</u>
	\$	(4,414,108)

IV. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

A. Cash Deposits with Financial Institutions

Custodial Credit Risk-Deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to the District. To address custodial credit risk, Board Policy 7.44 requires the use of qualified public depositories. All bank balances of the District are fully insured or collateralized as required by Chapter 280, Florida Statutes.

B. Investments

Fair Value Measurement

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs, and Level 3 inputs are significant unobservable inputs. The District's recurring fair value measurements are valued using quoted prices for similar assets or liabilities in active markets (Level 2 inputs) and investments with the State Treasury are valued based on the District's share of the pool (Level 3 inputs).

The District's investments on June 30, 2021, are reported as follows:

DUVAL COUNTY PUBLIC SCHOOLS

C. Interest Rate Risk

The District's investments as of June 30, 2021, are reported as follows:

Interest Rate Risk

The District's investments have the following maturities:

Investments	Maturities	Fair Value
SBA:		
Florida PRIME (1)	53 Day Average	\$ 30,892,480
SPIA	0.43 Year Average	232,377,046
Money Market Mutual Funds (1)(2)	44 Days Average	47,090,168
United States Treasury Securities (2)	July 2021 - May 2028	43,090,952
Obligations of United States Government Agencies and Instrumentalities (2)	October 21, 2021	949,845
Total Investments		\$ 354,400,491

Notes: (1) This investment is reported as a cash equivalent for financial statement reporting purposes.

(2) Includes \$44,040,797 of restricted investments and \$30,916,412 of restricted cash equivalents held under trust agreements in connection with the District's Qualified Zone Academy Bonds and Qualified School Construction Bonds financing arrangements to meet sinking fund requirements as follows: \$43,090,952 invested in United States Treasury Securities; \$949,844 invested in Obligations of United States Government Agencies and Instrumentalities; and \$36,663,867 invested in money market mutual funds.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Section 218.415(17), Florida Statutes, limits investment maturities to provide

sufficient liquidity to pay obligations as they come due. The District's investment policy limits investment maturities to a maximum of 24 months for operating funds and 5.5 years for other funds as a means of managing its exposure to fair value losses from increasing interest rates.

Florida PRIME and the money market mutual funds use weighted-average days to maturity (WAM). A portfolio's WAM reflects the average maturity in days, based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes.

External Investment Pools

The District's investments reported at net asset value in the SPIA investment pool represent ownership of a share of the pool, not the underlying securities. Pooled investments with the State Treasury are not registered with the Securities and Exchange Commission. Oversight of the pooled investments with the State Treasury is provided by the Treasury Investment Committee per Section 17.575, Florida Statutes. The authorized investment types are set forth in Section 17.57, Florida Statutes. The SPIA had an effective duration of 2.60 years and fair value factor of 0.9840 on June 30, 2021. Participants contribute to the Treasury Pool on a dollar basis. These funds are commingled, and a fair value of the pool is determined from the individual values of the securities. The fair value of the securities is summed, and a total pool fair value is determined. A fair value factor is calculated by dividing the pool's total fair value by the pool participant's total cash balances. The fair value factor is the ratio used to determine the fair value of an individual participant's pool balance.

The District's investment in the Florida PRIME investment pool, which the SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. The investments in the Florida PRIME investment pool are reported at amortized cost. Section 218.409(8)(a), Florida Statutes, states, "The principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the monies in the trust fund. However, the executive director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the Board [State Board of Administration] can invest monies entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the trustees, the Joint Legislative Auditing Committee, and the Investment Advisory Council. The trustees shall convene an emergency meeting as soon as practicable from the time the executive director has instituted such measures and review the necessity of those measures. If the trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the executive director until the trustees are able to meet to review the necessity for the moratorium. If the trustees agree with such measures, the trustees shall vote to continue the measures for up to an additional 15 days. The trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the trustees exceed 15 days." As of June 30, 2021, there were no redemption fees, maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the Local Government Surplus Funds Trust Fund [Florida PRIME], or any other intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; interest-bearing time deposits in qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury. The District's investment policy limits investments to Florida PRIME or similar intergovernmental investment pools; United States Government securities; obligations of United States Government Agencies and Instrumentalities; agency mortgage-backed securities; nonnegotiable interest-bearing time certificates of deposit, savings accounts, or money market accounts; repurchase agreements; commercial paper; corporate notes; municipal obligations; and SEC registered money market mutual funds.

The District's investments in the SBA debt service accounts are to provide for debt service payments on bond debt issued by the SBE for the benefit of the District. The District relies on policies developed by the SBA for managing interest rate risk and credit risk for this account. Disclosures for the Debt Service Accounts are included in the notes to financial statements of the State's Comprehensive Annual Financial Report.

The District's investment in Florida PRIME and money market mutual funds are rated AAAm by Standard & Poor's.

The District's investment in SPIA carried a credit rating of AA-f by Standard & Poor's at June 30, 2021. The District relies on policies developed by the State Treasury for managing interest rate risk and credit risk for this investment pool. Disclosures for the SPIA investment pool are included in the notes to financial statements of the State's Comprehensive Annual Financial Report.

Investments of \$949,845 in Obligations of the United States Government Agencies and Instrumentalities, \$43,090,952 in United States Treasury Securities, and \$30,916,412 in money market mutual funds are authorized under forward delivery agreements or supplemental trust agreements and are held by a trustee for the District's Qualified Zone Academy Bonds (QZABs) and Qualified School Construction Bonds (QSCBs) sinking fund obligations. The forward delivery agreements and supplemental trust agreements authorize the investment of the available sinking fund amounts in certain eligible securities, including United States Treasury securities, obligations issued by agencies of the United States Government, and short-term obligations issued by banks, corporations, or other borrowers having a rating at the time of delivery of at least A-1 by Standard & Poor's or P-1 by Moody's Investors Service. The District's investments in Obligations of the United States Government Agencies and Instrumentalities are rated A-1+ and P-1 by Standard & Poor's and Moody's Investors Service, respectively.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Section 218.415(18), Florida Statutes, requires the District to earmark all investments and (1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the

governing body's interest in the security; (2) if in book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or (3) if physically issued to the holder but not registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a secured vault. The District's investment policy requires that all securities, except for certificates of deposit, collateral repurchase agreements, and money market mutual fund shares be held by a third-party custodial institution, and that all securities purchased by and all collateral obtained by the District be properly designated as an asset of the District. The securities must be held in an account separate and apart from the assets of the financial institution. As of June 30, 2021, all investments were held with an appropriate custodian or trustee or were held in accounts in the name of the District.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. Except for funds related to debt, where there are other existing policies or indentures in effect, the District's investment policy limits the amount the District may invest in any one issuer as follows:

<u>Security Type</u>	<u>Single Issuer Maximum</u>
United States Government Agency Obligations	25%
Federal Instrumentalities	50%
Agency Mortgage-Backed Securities	15%
Nonnegotiable Interest Bearing Time Certificates of Deposit or Savings Accounts or Money Market Accounts	25%
Repurchase Agreements	10%
Commercial Paper	10%
Corporate Notes	5%
Municipal Obligations	10%
Money Market Mutual Funds	25%

- Notes: (1) Interest on this debt is paid by the United States Government through the issuance of Federal income tax credits to the holder of the QZAB (Qualified Zone Academy Bond). The rate of return to the holders was established by the United States Government at the time of the sale.
- (2) Series 2009B-QSCB (Qualified School Construction Bonds) is a principal only bond, with the investors receiving a tax credit in lieu of interest payments. The QSCBs also have a 2.1 percent supplemental interest component that was necessary for marketing the bonds to investors.
- (3) Series 2010A-QSCB is a 5.4 percent private placement issue where the District receives a direct interest subsidy payment from the United States Treasury. This subsidy reduced the District's true cost of borrowing to 0.169 percent over the duration of the lease term at the date of issuance.
- (4) The Series 2012-QZAB is a 3.79 percent taxable direct subsidy bond where interest expense incurred by the District is offset by an interest subsidy payment from the United States Treasury. This subsidy reduced the District's true cost of borrowing to 0 percent over the duration of the lease term at the date of issuance.

The District entered a master financing arrangement on October 1, 2000, characterized as a lease-purchase agreement, with the Duval School Board Leasing Corporation (Leasing Corporation) whereby the District secured financing of various educational facilities and equipment. The financing was accomplished through the issuance of Certificates of Participation by the Leasing Corporation to third-party investors, to be repaid from the proceeds of rents paid by the District. The rents are funded from proceeds of the Capital Projects – Local Capital Improvement Fund as permitted by Statute and paid from the Debt Service – Other Debt Service and Debt Service – ARRA Economic Stimulus Funds.

As a condition of the financing arrangement, the District gave a ground lease on District property to the Leasing Corporation, with a rental fee of \$10 per year. The properties covered by the ground lease are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the lease and to provide for the rent payments through to term, the District may be required to surrender the sites included under the Ground Lease Agreement for the benefit of the securers of the certificates for the remaining term of the ground leases.

Qualified Zone Academy Bonds (QZAB) Certificates. The 2005, 2012, and 2014B QZABs were issued under a special program whereby the financing proceeds were used to acquire technology-related equipment and improvements at various designated schools, which are leased by the District from the Leasing Corporation.

The 2005 QZABs were issued under a special program whereby the certificates mature in full for the original issue amounts. There is no interest cost for borrowing monies under this program.

The 2012 QZAB was issued December 19, 2012, in the amount of \$29,000,000, with a principal repayment due in full on July 1, 2027. The 2012 QZABs are structured as taxable interest subsidy bonds created under the American Recovery and Reinvestment Act of 2009 with the bondholders receiving a 3.79 percent yield on investment. The District, in turn, receives a direct subsidy payment from the United States Treasury equal to 3.79 percent, thereby netting the District's interest expense to 0 percent over the term of the borrowing at the date of issuance.

For the 2005 and 2012 QZABs, the District entered into forward delivery agreements under which deposits (rent payments) are accumulated. The forward delivery agreements provide a guaranteed investment return whereby the required sinking fund deposits, along with accrued interest, will be sufficient to redeem the certificates at maturity.

The 2014B QZAB was issued December 4, 2014, in the amount of \$50,000,000. The District pays the bondholder interest at 1.25 percent, and the bondholders receive a tax credit rate of 4.42 percent. In addition, the District makes annual sinking fund deposits which, along with accrued interest, will be sufficient to provide for principal repayment, in full, on July 1, 2028.

The invested assets accumulated pursuant to the forward delivery agreements and in the sinking funds are held under trust agreements until the certificates mature. The QZAB certificates are secured by the assets held under the trust agreements in the event of cancelation or default.

Qualified School Construction Bonds (QSCB) Certificates. QSCBs are tax credit or direct subsidy bonds created under the American Recovery and Reinvestment Act of 2009 for school construction and renovation projects and are designed to provide zero or near zero interest costs to the issuer. Issuers are responsible for repayment of principal.

In November 2009, the District issued Certificate Series 2009B-QSCB in the amount of \$27,220,000. The series was issued to finance the cost of additions at five existing education facilities. The Series 2009B-QSCBs are non-interest, principal only obligations, with two investors each receiving tax credits along with a 2.1 percent supplemental interest component that was necessary for marketing the bonds. The District is required to make 15 consecutive annual payments, totaling \$17,220,000, and 16 consecutive annual payments, totaling \$10,000,000, to an escrow account held by a fiscal agent, on behalf of each investor, until maturity. The Series will mature December 16, 2025.

In July 2010, the District issued Certificate Series 2010A-QSCB in the amount of \$33,074,000 to finance new school construction, classroom additions, and renovations of existing facilities. The Series 2010A-QSCBs were issued as taxable direct subsidy bonds, whereby the District pays the full amount of interest, 5.4 percent, to the lender, and then files for and receives a direct subsidy payment from the United States Treasury which reduces the District's true cost of borrowing to 0.169 percent at the time of issuance. In addition, the District makes annual sinking fund deposits which, along with accrued interest, will be sufficient to provide for principal repayment, in full, on July 1, 2027.

Minimum Lease Payments. Except for the QZABs and the QSCBs, lease payments are payable, semiannually, on July 1 and January 1. The QZABs and the 2010A-QSCB are payable at maturity, and the 2009B-QSCB is payable annually, for both principal and interest, on December 16. The following is a schedule by years of future minimum lease payments

The District's outstanding COPs from direct borrowings and direct placements totaled \$292,198,422. Information related to securities pledged as collateral and events of default provisions related to the COPs are discussed in Note IV.F.1.

For the governmental activities, compensated absences, other postemployment benefits, and pensions are generally liquidated with resources of the General Fund. The estimated insurance claims are generally liquidated with resources of the Proprietary Funds as discussed in a subsequent note.

G. Retirement Plans

1. Florida Retirement System (FRS) – Defined Benefit Pension Plans

General Information about the FRS

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other

nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site (www.dms.myflorida.com).

The District's FRS and HIS pension expense totaled \$98,032,350 for the fiscal year ended June 30, 2021.

FRS Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are as follows:

- Regular – Members of the FRS who do not qualify for membership in the other classes.
- Elected County Officers – Members who hold specified elective offices in local government.
- Special Risk – Members who are employed as law enforcement officers and meet the criteria to qualify for this class.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

The DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may

participate in DROP for a period not to exceed 60 months after electing to participate, except those certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed based on age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

<u>Class, Initial Enrollment, and Retirement Age/Years of Service</u>	<u>Percent Value</u>
<i>Regular members initially enrolled before July 1, 2011</i>	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
<i>Regular members initially enrolled on or after July 1, 2011</i>	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
<i>Elected County Officers</i>	3.00
<i>Special Risk Regular</i>	3.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2018-19 fiscal year were as follows:

<u>Class</u>	<u>Percent of Gross Salary</u>	
	<u>Employee</u>	<u>Employer (1)</u>
FRS, Regular	3.00	8.47
FRS, Elected County Officers	3.00	48.82
FRS, Special Risk Regular	3.00	25.48
DROP	0.00	14.60
FRS, Reemployed Retiree	(2)	(2)

Notes: (1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions to the Plan totaled \$35,248,418 for the fiscal year ended June 30, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2021, the District reported a liability of \$459,802,021 for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020. The District's proportionate share of the net pension liability was based on the District's 2019-20 fiscal year contributions relative to the total 2019-20 fiscal year contributions of all participating members. On June 30, 2020, the District's proportionate share was 1.060882294 percent, which was a decrease of 0.040858943 from its proportionate share measured as of June 30, 2019.

The deferred outflows of resources related to pensions resulting from District contributions to the Plan subsequent to the measurement date, totaling \$44,946,485, will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>

Actuarial Assumptions. The total pension liability in the July 1, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary Increases	3.25 percent, average, including inflation
Investment rate of return	6.8 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2020, valuations were based on the results of an actuarial experience study for the period July 1, 2014, through June 30, 2019.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.2%	2.2%	1.2%
Fixed Income	19.0%	3.0%	2.9%	3.5%
Global Equity	54.2%	8.0%	6.7%	17.1%
Real Estate (Property)	10.3%	6.4%	5.8%	11.7%
Private Equity	11.1%	10.8%	8.1%	25.8%
Strategic Investments	4.4%	5.5%	5.3%	6.9%
Total	100.0%			
Assumed Inflation - Mean			2.4%	1.7%

Note: (1) As outlined in the FRS Pension Plan's investment policy available from funds managed on the SBA's website at www.sbafla.com.

(2) The money weighted plan rate of return is an estimate using estimated level monthly net external cash flows. It may differ from the more precise return calculated by the Florida State Board of Administration.

Discount Rate. The discount rate used to measure the total pension liability was 6.8 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate used in the 2020 valuation was updated from 6.9 percent to 6.8 percent.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.8 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.8 percent) or 1 percentage point higher (7.8 percent) than the current rate:

	1% Decrease (5.8%)	Current Discount Rate (6.8%)	1% Increase (7.8%)

HIS Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided. For the fiscal year ended June 30, 2021, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Federal Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2021, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$9,350,579 for the fiscal year ended June 30, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. On June 30, 2021, the District reported a net pension liability of \$179,238,246 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within 1 year, net of the District's proportionate share of the pension plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020. The District's proportionate share of the net pension liability was based on the District's 2019-20 fiscal year contributions relative to the total 2019-20 fiscal year contributions of all participating members. On June 30, 2020, the District's proportionate share was 1.563979474 percent, which was a decrease of 0.04264701 from its proportionate share measured as of June 30, 2019.

For the fiscal year ended June 30, 2021, the District recognized the HIS Plan pension expense of \$11,523,751. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 7,811,395	\$ 147,313
Change of assumptions	20,533,568	11,103,541
Net difference between projected and actual earnings on HIS pension plan investments	152,463	-

District contributions subsequent to the measurement date	9,350,579	-
Total	\$ 38,042,352	\$ 28,669,376

The deferred outflows of resources related to pensions resulting from District contributions to the HIS Plan subsequent to the measurement date, totaling \$9,350,579, will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2021. Other amounts

reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Thereafter	1,650,550
Total	\$ 22,397

Actuarial Assumptions. The total pension liability in the July 1, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.4 percent
Salary Increases	3.25 percent, average, including inflation
Municipal Bond Rate	3.50 percent

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

Discount Rate. The discount rate used to measure the total pension liability was 3.50 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate changed from 3.50 percent to 2.21 percent.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 2.21 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount

rate that is 1 percentage point lower (1.21 percent) or 1 percentage point higher (3.21 percent) than the current rate:

	1% Decrease (1.21%)	Current Discount Rate (2.21%)	1% Increase (3.21%)
District's proportionate share of the net pension liability	\$ 220,740,482	\$ 190,959,346	\$ 166,583,574

Pension Plan Fiduciary Net Position. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

2. FRS – Defined Contribution Pension Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan (Investment Plan). The Investment Plan is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Service retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of plan members. Allocations to the investment member's accounts during the 2018-19 fiscal year were as follows:

<u>Class</u>	<u>Percent of Gross Compensation</u>
FRS, Regular	8.47
FRS, Elected County Officers	48.82
FRS, Senior Management Service	25.41
FRS, Special Risk Regular	25.48

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings, regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to

FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2021, the information for the number of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$13,542,167 for the fiscal year ended June 30, 2021.

H. Other Postemployment Benefit Obligations

Plan Description. The Other Postemployment Benefits (OPEB) Plan is a single-employer defined benefit plan administered by the District that provides OPEB for all employees who satisfy the District's retirement eligibility provisions. Pursuant to the provisions of Section 112.0801, Florida Statutes, employees who retire from the District, and eligible dependents, are eligible to participate in the District's health and hospitalization plan for medical and prescription drug coverage. Retirees and their eligible dependents shall be offered the same health and hospitalization insurance coverage as is offered to active employees at a premium cost of no more than the premium cost applicable to active employees. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because retiree healthcare costs are generally greater than active employee healthcare costs. The OPEB Plan contribution requirements and benefit terms of the District and the OPEB Plan members are established and may be amended through recommendations of the District Insurance Committee and action from the Board. No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB Statement No. 75.

Benefits Provided. The OPEB Plan provides healthcare insurance benefits for retirees and their dependents. In addition, the District offers an early retirement incentive that expired June 30, 2021, under which retirees may receive paid single medical coverage for a maximum period of 60 months or when the retiree turns age 65.

Employees Covered by Benefit Terms. On June 30, 2021, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	627
Active Employees	<u>11,079</u>
Total	<u>11,706</u>

Total OPEB Obligation. The District's total OPEB Liability of \$53,682,679 was measured as of June 30, 2021 and was determined by an actuarial valuation as of June 30, 2021, and update procedures were used to determine the total OPEB liability as of June 30, 2021.

Actuarial Assumptions and Other Inputs. The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.5 percent per annum
Salary Increases	3.5 percent, average, including inflation per annum
Discount Rate	2.16 percent
Healthcare Cost Trend Rates	5.5 percent for 2021, decreasing 0.5 percent per year to an ultimate rate of 4.5 percent for 2022 and later years

The discount rate was based on the 20-year tax exempt municipal bond yield rate closest to but not later than the measurement date.

Demographic assumptions employed in the actuarial valuation were the same as those employed in the July 1, 2020, actuarial valuation of the FRS Defined Benefit Pension Plan. These demographic assumptions were developed by FRS from an actuarial experience study, and therefore are appropriate for use in the OPEB Plan actuarial valuation. These include assumed rates of future termination, mortality, disability, and retirement. In addition, salary increase assumptions (for development of the pattern of the normal cost increases) were the same as those used in the July 1, 2020, actuarial valuation of the FRS Defined Benefit Pension Plan. Assumptions used in valuation of benefits for participants of the FRS Investment Plan are the same as for similarly situated participants of the FRS Defined Benefit Pension Plan.

A change in the discount rate from 2.21 percent in 2020 to 2.16 in 2021 which increased the liability.

K. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Workers' compensation, general liability, and automobile liability coverages, and health and hospitalization coverage, are being provided on a self-insured basis. The District has contracted with insurance administrators to administer the self-insurance programs, including the processing, investigation, and payment of claims. The insurance administrators have been approved by the Florida Department of Financial Services, Office of Insurance Regulation.

The District's liability for workers' compensation is limited to \$150,000 to \$425,000 per occurrence, depending on the year of occurrence, through January 31, 2003. Additionally, during the period February 1, 1997, through January 31, 2002, the District's liability is limited by aggregate excess coverage when total claims minus specific excess coverage exceed the loss fund established annually by the District. For claims occurring on or after February 1, 2003, the District retained the entire liability for workers' compensation claims. The District's liability for tort claims under the general and automobile liability coverages is limited by Section 768.28, Florida Statutes, which limits claims to \$100,000 per claim and \$200,000 per incident for claims prior to October 1, 2011. Effective October 1, 2011, the limit is \$200,000 per claim and \$300,000 per incident.

The District's liability for health and hospitalization coverage is limited by excess insurance to \$650,000 per individual per plan year. The health and hospitalization coverage provided by the District also contains high employee and dependent deductibles. The District contributes \$450 per eligible employee and an additional \$300 for dependent and family coverage to an Internal Revenue Code 125 Flexible Benefits Plan (Flex Plan), for those employees who have elected the contributory

medical plan. Any contributions to the Medical Flexible Spending Account are subject to a use-it-or-lose-it rule whereby unspent balances remaining in the Flex Plan after the reimbursement eligibility period are forfeited.

As of June 30, 2021, a liability in the amount of \$17,410,000 was actuarially determined to cover estimated incurred, but not reported, workers' compensation, general liability, and automobile liability insurance claims payable, and a liability in the amount of \$7,276,428 was actuarially determined to cover estimated incurred, but not reported, health and hospitalization insurance claims payable.

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insured workers' compensation and health and hospitalization programs, including liabilities that have been incurred but not reported (IBNR):

Program / Year	Balance at Beginning of Fiscal Year	Current Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year-End
Workers' Compensation:				
2019-20	\$ 18,722,000	\$ 2,683,823	\$ (3,995,823)	\$ 17,410,000

2020-21	7,276,428	125,043,744	(124,626,629)	7,693,543
Total:				
2019-20	\$ 25,227,624	\$ 118,922,369	\$(119,463,565)	\$ 24,686,428
2020-21	24,686,428	127,980,944	(128,529,829)	24,137,543

Liability coverage for property protection, errors and omissions, employee blanket bond, and other coverage deemed necessary by the Board are provided through purchased commercial insurance, with minimum deductibles for each line of coverage. There have been no changes in insurance coverage from prior fiscal year. There were no settlements more than commercial insurance coverage in any of the 3 prior fiscal years.

In addition to committed and assigned fund balance categories discussed in Fund Balance Policies note disclosure, fund balances may be classified as follows:

Nonspendable Fund Balance. Nonspendable fund balance is the net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash.

Restricted Fund Balance. Restricted fund balance is the portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance.

Assigned Fund Balance. Assigned fund balance is the portion of fund balance that a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

Unassigned Fund Balance. The unassigned fund balance is the portion of fund balance that is the residual classification for the General Fund. This balance represents amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned for specific purposes. The General Fund is the only fund that reports a positive unassigned fund balance amount.

M. Receivable and Payable

1. Interfund Receivable and Payable

The following is a summary of the interfund receivable and payable reported in the financial statements as of June 30, 2021:

Fund	Receivables	Payables
Major Governmental Funds:		
General	\$ 16,979,622	\$ -
Special Revenue - Other Federal Programs	-	1,914,157
Special Revenue - Federal Education Stabilization Fund	-	15,065,464
Total	<u>\$ 16,979,622</u>	<u>\$ 16,979,622</u>

The above interfund receivable and payable represents monies owed to the General Fund from the Special Revenue – Other Federal Programs Fund to cover expenses incurred awaiting reimbursement from various grant sources. Interfund receivables and payables are expected to be collected within one year of the end of the fiscal period.

2. Receivables

Receivables as of June 30, 2021, for the District’s major funds, including the applicable allowances for uncollectible accounts, are as follows:

	General Fund	Special Revenue - Food Service Fund	Totals
Receivables			
Accounts Receivable	\$ 3,195,005	\$ 32,709	\$ 3,227,715
Less allowance for doubtful accounts	(1,672,040)	-	(1,672,040)
Accounts Receivable (net)	<u>1,522,966</u>	<u>32,709</u>	<u>1,555,675</u>
Total receivables	<u>\$ 1,522,966</u>	<u>\$ 32,709</u>	<u>\$ 1,555,675</u>

Based on the payment history for General Fund accounts receivable, \$210,000 of the amount reported is not expected to be collected within the next year. The Special Revenue – Food Service Fund accounts receivable are expected to be collected within the next year. The major Debt Service - Other Debt Service Fund and ARRA Economic Stimulus Fund, and Capital Projects - Local Capital Improvement Fund, along with the aggregate non-major funds, did not have either tax receivables or accounts receivable.

N. Revenues

1. Schedule of State Revenue Sources

The following is a schedule of the District's State revenue for the 2020-21 fiscal year:

<u>Source</u>	<u>Amount</u>
Florida Education Finance Program	\$ 501,198,175
Categorical Educational Program - Class Size Reduction	148,301,311
Charter School Capital Outlay	9,700,971
Motor Vehicle License Tax (CO and DS)	4,347,798
Voluntary Prekindergarten Program	2,492,882
Facilities Security Grant	1,491,248
Food Service Supplement	863,646
District Instructional Leadership and Faculty Development	24,455
Racing Commission Funds	446,500
State License Tax	256,899
Department of Children and Families	150,000
Total	\$ 669,273,884

Accounting policies relating to certain State revenue sources are described in Note I.H.2.

2. Property Taxes

The following is a summary of millages and taxes levied on the 2020 tax roll for the 2020-21 fiscal year:

	<u>Millages</u>	<u>Taxes Levied</u>
<u>GENERAL FUND</u>		
Nonvoted School Tax:		
Required Local Effort	3.6570	\$ 291,037,338
Basic Discretionary Local Effort	0.7480	59,528,556
<u>CAPITAL PROJECTS - LOCAL CAPITAL IMPROVEMENT FUND</u>		
Nonvoted Tax:		
Local Capital Improvements	1.5000	119,375,446
TOTAL	5.9050	\$ 469,941,340

Actual property taxes collected totaled less than the total taxes levied. The Duval County Tax Collector is not required by law to make an accounting to the School Board of the difference between taxes levied and taxes collected. However, because of discounts allowed for early payments and other reasons for non-collection, the School Board budget estimates an anticipated 4 percent shortfall between taxes levied and taxes collected.

O. Interfund Transfers

The following is a summary of interfund transfers reported in the fund financial statements for the year ended June 30, 2021:

Proprietary - Internal Service:		
Printing	147,723	-
Total	\$ 63,779,642	\$ 63,779,642

Interfund transfers represent permanent transfers of monies between funds. The transfers out of the Capital Projects – Local Capital Improvement Fund were to provide for debt service payments in the Debt Service – Other Debt Service Fund and Debt Service – ARRA Economic Stimulus Fund, and to provide funding for minor maintenance, property/casualty insurance, and transportation expenditures in the General Fund. The other transfers out of the Capital Projects – Other Capital Projects Fund were to provide funding for charter school capital outlay. The transfers out of the Special Revenue – Food Service Fund were to provide funding to the General Fund for construction expenditures. The remaining transfers between funds were operational in nature.

P. Litigation

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District management, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2021**

A. Schedule Of Changes in the District’s Other Post-Employment Benefits Liability and Related Ratios

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75 to pay related benefits.

Changes in assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each measurement period. The following are the discount rates used in each measurement period:

Year	Discount Rate
2021	2.16%
2020	2.21%

In 2021, amounts reflect a 0.05 percentage point decrease in the healthcare cost trend rates from the prior year.

B. Schedule Of Net Pension Liability and Schedule of Contributions – Florida Retirement System Pension Plan

Changes in assumptions. The long-term expected rate of return was decreased from 6.9 percent to 6.8 percent, and the active member mortality assumption was updated.

C. Schedule of Net Pension Liability and Schedule of Contributions – Health Insurance Subsidy Pension Plan

Changes in assumptions. The municipal bond rate used to determine total pension liability was decreased from 3.50 percent to 2.21 percent.

SCHEDULE OF MATURITIES OF INDEBTEDNESS

INSTRUCTIONS

This schedule is used when bonds are sold during the fiscal year. A schedule should be completed for each district bond, regardless of whether it is an original bond issue or a refunding issue. The schedule should be completed at the time of the bond sale and forwarded to the following office:

Florida Department of Education
Office of Funding and Financial Reporting
325 West Gaines Street, Room 814
Tallahassee, Florida 32399-0400

INSTRUCTIONS:

1.(A) ORIGINAL ISSUE.

Enter the following for each original issue: issue date, par amount, issue costs, premium or discount, net proceeds and accrued interest. The par amount should be the face value of the bond and should not be adjusted for any costs, premiums or discounts. The issue costs are those normally associated with a bond issue, such as underwriter fees and administrative costs. The net proceeds should not include the accrued interest received. Accrued interest is not a revenue or an other financing source for fund accounting and should be recorded as a liability in the fund financial statements.

1.(B) REFUNDING.

Enter the following for each refunding of bonds: refunding date, par amount, issue costs, premium or discount, amount paid to bond refunding escrow agent, net proceeds or additional funding paid, accrued interest, original issue refunded, amount refunded, and gain or loss on refunding. The par amount should be the face value of the refunding and should not be adjusted for any costs, premiums or discounts. The issue costs are those normally associated with a bond issue, such as underwriter fees and administrative costs. The amount paid to the escrow agent is the cash outlay for the refunding. The original issue refunded is the name of the issue and may be abbreviated like "Series 2001" or "Series 2002A." The amount refunded is usually the callable portion of the original issue and is often not the same as the par amount of the refunding. This is the amount of liability that is relieved from the refunding and is used in the government-wide conversion from the fund financial statements. The gain or loss on refunding is usually the difference between the amount paid to the escrow agent and the liability relieved. Again, this is only used in the government-wide conversion from fund financial statements. Refunding does not always result in relieving the debt of an entire original bond issue, so there may be instances in which the notes to the financial statements may still have to list the non-refunded/non-callable portion of the original issue.

2. FUND.

Enter which funds are to be used in recording each issue. Original issues may be split between both capital projects and debt service funds. For instance, an amount covering the costs of issuance may be reported as other financing sources in a debt service fund, with the remaining par value recorded as other financing sources in the capital projects funds. Since refundings relate to existing debt and are not a source of capital funding, transactions are typically recorded in a debt service fund.

5. SCHEDULE OF MATURITIES.

The fund name should be the full name of the bond issue, such as "State School Bonds, Series 2007A" or "Certificates of Participation, Series 2008B" or "District General Obligation Bonds, Series 2008."

Payments listed for principal and interest during each fiscal year should agree with the amounts for the fiscal year in which these payments will be budgeted and expended in the district's accounting records.

Totals at the bottom of this schedule under the columns headed "OUTSTANDING JUNE 30" should be entered manually.
