January 27, 2020

Why is my W2 amount so much less than my annual salary?

1. The amount in Box 1 on your W2 is your **withholding tax gross** not your total gross pay. The most common reason is pre-tax insurance deductions. 2. A bonus or supplement received in 2018 and not 2019.
3. Changing from the regular pay plan to the optional pay plan can cause earnings to be pushed back into the next year.
4. An increase in the amount of pre-tax benefits in 2019.
