Meals

Meals are reimbursed to all travelers on a per diem basis and **may not** be charged to the District's procurement card (P-card).

Meals are reimbursed for all travelers while in travel status, based upon when the travel begins and ends.

If a traveler receives per diem reimbursement for traveling to cities with lower per diem rates than the City of Jacksonville, the per diem difference must be reported as taxable income per IRS regulations. All reimbursed per diem differences will be added to the employee's W2 at the end of the calendar year.

For example: An employee travels to Tallahassee for two days and they receive a per diem reimbursement in the amount of \$100 (\$50 per day). The city of Tallahassee has a per diem rate of \$25 per day, the difference between what was paid to the employee and Tallahassee's per diem rate is \$50 (\$25 per day). The difference between the per diem rates paid to the traveler \$50, will be report as taxable income on the travelers W2.

Calculating Per Diem: Traveler per diem is based on the following rates breakfast \$10, lunch \$14 and dinner \$26. Funds will be paid to the traveler post travel. Per Diem rates will be paid for the entire trip based on time of departure and time of return. The criteria below must be followed when calculating travelers allowable per diem:

Breakfast (\$10)	Travel must begin before 6 AM and extend beyond 8 AM
Lunch (\$14)	Travel must begin before 12 PM and extend beyond 2 PM
Dinner (\$26)	Travel must begin before 6 PM and extend beyond 8 PM

Meals that are provided to the traveler either served at a hotel, conference, or provided by another individual cannot be claimed for per diem reimbursement, *this includes a "continental breakfast"*. Per legal opinion AGO 81-53 by the Florida Attorney General and Florida Statute 112.061 a *"continental breakfast"* is a meal and per diem claimed must be reduced accordingly for any meals provided.

Mileage Reimbursement

Department heads may authorize the use of privately owned vehicles for official travel in lieu of publicly owned vehicles or common carriers. The traveler is entitled to a mileage allowance at a fixed rate as determined by the Internal Revenue Service. However, if travel exceeds 400 miles, the most economical method of travel, usually airline must be used. Reimbursement for expenditures relating to the operation,

maintenance, and ownership of a vehicle shall not be allowed when privately owned vehicles are used on public business.

For purpose of reimbursement of travel expenses, all travel shall be deemed to have commenced at the travelers constructive point of origin, travelers residence, or the place where the travel actually commenced, whichever is less.

DCPS employees, who report less than 60% (3 days) to a defined worksite, shall be considered to have various constructive points of origin. For reimbursement purposes, the constructive point of origin for such employees shall be the first official duty location for the workday and they shall be responsible for the cost of travel from their personal residence to the location of the first place of official duty, and from the last place of official duty to their personal residence.

Reimbursement of Mileage

Current mileage reimbursement rates are available on the Accounts Payable website <http://dcps.duvalschools.org/Page/9552>.

In County mileage reimbursements must be submitted to Accounts Payable **no later than 15 business days of the month immediately succeeding the travel**. Travel reimbursement requests received after this deadline may not be accepted and may result in non-reimbursement to the employee.

Out of County mileage reimbursements must be submitted to Accounts Payable **no later than 15 calendar days from the last date of travel**. MapQuest is required to support out of county mileage. Travel reimbursement requests received after this deadline may not be accepted and may result in non-reimbursement to the employee.

Constructive Point of Origin Defined

An employee's constructive point of origin is the place where the majority of the work of the traveler is performed. DCSB employees, who report less than 60% (3 days/wk.) to a defined worksite, shall be considered to have various constructive points of origin. For reimbursement purposes, the constructive point of origin for such employees shall be the first official duty location for the workday.

Constructive Point of Origin

For purposes of reimbursement of travel expenses, all travel shall be deemed to have commenced from the lesser of the travelers constructive point of origin, residence or the place where the travel actually commenced.

Complimentary Mileage

Any complimentary mileage must be so noted on the travel voucher, giving total mileage and the name of the traveler whom provided the complimentary mileage. No traveler shall be allowed either mileage or transportation expense when he/she is gratuitously transported by another traveler who is entitled to mileage or transportation expense.

Mileage To and From the Airport

Mileage to and from the airport is calculated as the actual mileage from an employee's Constructive Point of Origin to/from the airport.

Vicinity Mileage Claimed

Vicinity mileage necessary for the conduct of official business is allowable but is shown as a separate item on the expense voucher. Vicinity mileage is determined by applying the lesser of “point of origin or headquarters” rule. (Applies to Out of County/Out of State Travel only).

A written explanation must be provided when vicinity mileage exceeds 40 miles in one day.

A traveler may not claim more mileage than was actually incurred as a necessary business travel expense. Due to unusual travel needs, the location of the traveler’s work location or circumstances beyond the traveler’s control, a deviation from these procedures may at times be necessary. When such a deviation is required, the supervisor’s approval should be obtained in writing on the travel reimbursement voucher.

Changing Mode of Transportation

When there is a change in the mode of transportation on a single trip, which results in a private vehicle being driven, for audit purposes a memo should accompany the voucher or a statement should be written on the travel voucher explaining the inconsistency. Without explanation the traveler will be billed for the increased costs.

If a flight needs to be cancelled for a non-refundable fare, cancel the flight immediately. To verify the cancellation fee is allowable, the traveler must file a Travel Reimbursement Form that includes a justification stating the business reason the airfare was cancelled. However, if a ticket is cancelled for the convenience of the traveler, the cancellation fee must be paid by the traveler.

Most Economical Means

It is the responsibility of the traveler to utilize the most economical method of travel for each trip, keeping in mind the following conditions:

- The nature of the business.
- The most effective and economical means of travel (considering time of the travel, cost of transportation and per diem or subsistence required.)
- The number of persons making the trip and the amount of equipment or material to be transported.

If a person travels by an indirect route for his/her own convenience, any extra cost shall be borne by the traveler and reimbursement for expenses shall be based only on such charges as would have been incurred by a usually traveled route.

If travel exceeds 400 miles one way, cost of the travel will only be reimbursed at the cost of the lowest method of travel (usually airfare).

Upgrades and/or additional travel insurance of any kind is not covered by the District.

Rental Car

Rental Car Contract

Duval County Public Schools may use the car rental agency awarded a contract by the State of Florida which may be at a comparable or lower rate than other agencies. However, due to promotions and/or specials, other agencies may offer comparable rental rates. The most economical means should be used when renting a vehicle for District travel. The State of Florida rental car contract may be viewed online at:

http://www.dms.myflorida.com/business_operations/state_purchasing/vendor_information/state_contracts_and_agreements/state_term_contracts/rental_vehicles

When a rental car is used for out of county travel within a close proximity, a justification statement should be included on the Travel Expenditure Statement form SB-01-34.

Rental Car Charges:

When making rental car reservations, the traveler is required to use a compact car unless the number of passengers or the volume of materials to be transported makes the use of a compact vehicle impractical. The Accounts Payable Department may request additional supporting information for rental cars that do not appear to meet the criteria of “the most economical means of travel.”

Travelers may not elect to receive additional insurance provided by a car rental company. The District is self-insured and if an accident occurs the employee would be covered under the Districts insurance.

Travelers may not elect to receive the fuel charge option offered by a car rental company. Fuel costs are normally more expensive from the rental car company than from the local gas station. If the rental car must be re-fueled prior to return, the traveler should purchase gasoline from a local merchant in the travel area and submit an itemized receipt for reimbursement.

Privately Owned Vehicles

The Department Head/Principal may authorize the use of a privately owned vehicle and pay the mileage allowance rate even if a publicly owned vehicle is available. Mileage costs will be reimbursed per Internal Revenue Service current mileage rates. Current mileage rates are available on the districts Accounts Payable website <http://dcps.duvalschools.org/Page/9552>.

Commercial Airlines

Travelers may not elect to receive additional insurance provided by a company. The District is self-insured and if an accident occurs the employee would be covered under the District’s insurance.

Travelers may not elect seat preference. See Most Economical Means Page 18.

Unused, Lost, or Cancelled Airline Tickets

Travelers are responsible for their own unused or lost tickets if they were obtained on a traveler’s personal credit card or the District’s procurement card (P-Card). Unused tickets must be returned to the issuing airline or travel agency for credit. Lost or unused ticket costs charged to the District’s procurement card (P-card) must be reimbursed to the District unless the non-use was in the best interest of Duval County Public Schools.

If a flight needs to be cancelled for a non-refundable fare, cancel the flight immediately. To verify the cancellation fee is allowable, the traveler must file a Travel Reimbursement Form that includes a justification stating the business reason the airfare was cancelled. However, if a ticket is cancelled for the convenience of the traveler, the cancellation fee must be paid by the traveler.

Non-refundable Tickets

Penalties for cancellation of discounted airline tickets, referred to as “non-refundable” tickets, may be paid from Duval County Public School or Federal Project funds only if the cause for cancellation is in the best

interest of the District. If the ticket is cancelled for the convenience of the traveler, the cancellation penalty may not be paid or reimbursed from Duval County Public School or Federal Project funds. Although the savings realized from the use of such tickets may be considerable, personnel shall also keep in mind that the penalties for cancellation of the tickets are generally substantial. Travelers shall carefully evaluate the circumstances and risk of cancellation prior to the purchase of each such ticket in order to avoid or at least minimize the cancellation penalty on these tickets. When a department head/principal determines that it is in the best interest of Duval County Public Schools to cancel a “super saver” ticket and pay the cancellation penalty, justification detailing the circumstances necessitating payment of the penalty from District funds must be included in the voucher submitted for payment of the cancellation penalty.

Baggage Claims/Fees

Due to rising fuel costs most airlines are now charging baggage fees for checked baggage. All travelers should make every effort to keep these costs as low as possible.

Hotels

General

All employees are required to use the District procurement card (P-Card) for hotel expenses, utilizing the most economical room available. The hotel receipt must be provided to the cardholder for transaction verification in SAP.

When submitting receipts for lodging expenses, receipts must show the name and address of the establishment, the name of the traveler, itemized receipt listing daily rate and applicable taxes, and the dates checked in and out. In addition, the following requirements must be met:

1. The hotel receipt must be either marked paid or have a zero balance.
2. Lodging expenses are not tax exempt outside the state of Florida. Travelers are allowed to pay or authorize charges for any taxes that may be charged by the hotel. Any such charges paid with personal funds by the traveler may be submitted for reimbursement.
3. If a safe charge is a mandatory charge by the hotel, it is an acceptable expense. If it is an optional charge, it is the responsibility of the traveler and must be reimbursed to the District.
4. If there is a mandatory hotel parking charge, it should be included on the hotel receipt. Self-parking is required when available.
5. Justification may be requested by Accounts Payable if hotel rates are deemed excessive.

Hotel Rooms Shared by Multiple Travelers

When multiple travelers share a hotel room and the hotel bill is paid by one of the travelers, the traveler paying the bill must submit the original hotel receipt with a zero balance. When multiple travelers have separate rooms and one traveler pays the hotel bill for all, then the traveler paying the hotel bill must submit the original hotel receipts for all rooms with a zero balance. The traveler whose hotel bill is being paid must file a travel voucher and state on his/her voucher “hotel room shared with or paid by John/Jane Doe.”

Conferences

General

No public funds shall be expended for attendance at conferences or conventions unless all of the following apply:

1. The main purpose of the conference or convention is in connection with the official business of the Duval County Public Schools and directly related to the performance of the statutory duties and responsibilities of the department/school participating.
2. The activity provides a direct educational or other benefit supporting the work and public purpose of the person attending.
3. The duties and responsibilities of the traveler attending such meetings are compatible with the objectives of the particular conference or convention.
4. The request for payment of travel expenses is otherwise in compliance with these procedures. Whenever possible employees **must** use the procurement card (P-Card) to pay registration fees; if the conference does not accept credit card payments, the registration fee may be pre-paid or reimbursed. When a traveler is authorized to attend conventions, conferences, seminars or workshops, or when a registration fee is paid, the original travel authorization form and one copy of the registration receipt must be submitted with any reimbursement requests along with a copy of the agenda.

In accordance with Department of Banking and Finance Rule 3A-42.004(2), Florida Administrative Code, when the words conference, convention, workshop or seminar appear as the purpose of a trip or when a registration fee is paid, there must be a statement of benefits accruing to the Duval County Public Schools. In other words, the benefits the Duval County Public Schools receives by paying these travel expenses must be stated on the travel authorization form SB-01-34. (Form SB-01-34 on green paper for federal funds)

Department Sponsored Conferences

No registration fee can be collected by the Department for any Department-sponsored conference.
